Department of Biomedical Sciences
Supplemental Application

Please complete this form and return directly to Tony Torres, atorres@albany.edu

Name: __________________________________________________________

I am interested in the following track *(select all that apply, in order of priority using 1, 2, 3, etc)*:

[ ] Immunology and Infectious Diseases
[ ] Biodefense and Emerging Infectious Diseases** (complete page 2)
[ ] Molecular Genetics
[ ] Neuroscience
[ ] Structural and Cellular Biology
[ ] Wadsworth Public Health Fellowship (complete page 3)

Please provide a list of 4-6 faculty with whom you might be interested in working. Visit www.albany.edu/sph/bms to review faculty research interests. Please note that this does not represent a commitment on your part, and if you enroll in the Department, you will still be free to choose other faculty as mentors. Also note that some faculty are not currently taking new students, as indicated by an asterisk next to their name on the faculty web pages.

3. ______________________________  6. ______________________________

How did you find out about our graduate program *(check all that apply)*:

_____ Faculty Referral  _____ Student Referral  _____ Google Ad

_____ Internet search using key words (please specify): __________________________________________________

_____ Other (please specify): __________________________________________________
Training Program in Biodefense and Emerging Infectious Diseases

This is an interdisciplinary program, funded by the National Institute of Allergy and Infectious Disease (NIAID), to prepare the next generation of scientists who will develop integrated research programs in biodefense preparedness and response to infectious threats. Fellows will receive broad training in bioterrorist agents, emerging infectious disease, and epidemiology.

Applicants to the doctoral program may apply for a Fellowship in Biodefense and Emerging Infectious Diseases, which includes a competitive stipend, tuition, health insurance, and travel to a scientific meeting.

Candidates who wish to apply for this fellowship must be either a US citizen or a permanent resident.

Name: __________________________________________________________

[ ] I wish to be considered for a Fellowship in Biodefense and Emerging Infectious Diseases. Please attach a one page essay discussing your interests and outlining your goals in the area of biodefense and emerging infectious diseases.
Wadsworth Public Health Fellowship

Applicants to the doctoral program may apply for the Wadsworth Public Health Fellowship. This program will give students a one year paid internship in one of the Wadsworth Center's Public Health groups, following successful completion of a PhD. As the New York State Public Health Reference Laboratory, the Wadsworth Center houses multiple groups working in the field of Public Health Science. These internationally recognized groups respond to public health threats, and develop advanced methods to detect microbial agents and genetic disorders.
