Spring 2015 Course Announcement

EHS 535: Environment and Cancer
Thursdays: 3:00PM - 5:50PM
Massry Conference Room, Cancer Research Center,
East Campus, 1 Discovery Dr., Rensselaer, NY 12144

Course Director:
Ramune Reliene, Ph.D.
rreliene@albany.edu Phone: 591-7152

Course Description:
This one-semester 3 credit course will discuss the impact of the Environment on Cancer in a broad sense. We will discuss potential carcinogens present in the air, food and water. In addition, we will talk about the role of obesity, circadian rhythms and infectious agents on the risk of cancer. Also, cancer prevention by diets and bioactive food compounds will be discussed based on the available research evidence from human, animal and cellular studies.

Prerequisites:
College level knowledge of Biology or permission of the course director.
