Courses in Public Administration & Policy

**R Pad 140 (=R Pos 140)**  
Introduction to Public Policy (3)  
*This course offered online through the Blackboard Learning System.* Introduction to theories of how democracies make public policy. Describes the roles of government institutions, the media, and interest groups in the policy process. Reviews current theories of how problems are identified and how policies are formulated, enacted, and implemented to address public problems. Only one of R PUB 140 and R POS 140 may be taken for credit.  
(2405) Slye, Katherine  
6 Week 3: July 5-August 12  
*Online course in Blackboard*

**R Pad 343 (=C Ehc 343/R Pos 343)**  
Homeland Security (3)  
*This course offered online through the Blackboard Learning System.* This undergraduate survey course introduces students to the US government response to the attacks of September 11, 2001, specifically, the second largest reorganization of the executive branch that produced the US Department of Homeland Security. Topics examined include border and transportation security, customs, immigration policy and enforcement; preparedness and capabilities building, response and resilience; critical infrastructure protection; threat and vulnerability assessment and risk management; cyber security; counter-terrorism. Although the course is primarily focused on US federal government activities, it will also examine state and local dimensions of homeland security as well as US government interactions with other countries in the homeland security domain.  
(2459) Mathews, Rick  
4 Week 1: May 23-June 17  
*Online course in Blackboard*

**R Pad 344 (=C Ehc 344)**  
Emergency Preparedness (3)  
*This course offered online through the Blackboard Learning System.* This course provides a study of applicable policies, protocols, and laws that impact the practice of emergency preparedness at the federal, state, and local levels of government. The study includes a brief review of the history of emergency management setting the stage for an examination of "best practices" and philosophies. These drive the nation's preparedness, response, recovery, and mitigation efforts of various levels of emergencies and disasters which in turn helps facilitate a community's resilience in the face of disasters. The methodology used in this course includes classroom discussions and activities, studies of applicable case studies, and individual exploration resulting in a well crated paper. Where applicable, simulation activities provide opportunities for the student to "experience" realistic situations similar to real-world emergencies and disaster operations. Prerequisite(s): R PAD/C EHC 101, Introduction to Emergency Preparedness, Homeland Security and Cybersecurity, recommended.  
(2462) Hastings, Terry  
4 Week 2: June 20-July 15  
*Online course in Blackboard*

**R Pad 366 (=R Pos 399)**  
International Environmental Policy (3)  
*This course offered online through the Blackboard Learning System.* The class investigates how environmental consciousness arose in major industrial countries and the subsequent formation of environmental policies and institutions in China and India. After reviewing US experience, the class considers critical dilemmas including climate change, water scarcity and renewable energy.
Caldon, Joshua
6 Week 1: May 23 - July 1

Online course in Blackboard

R Pad 438
U.S. Health Policy in the Age of Obama (3)
This course offered online through the Blackboard Learning System. How does "Obamacare" work, why is it designed the way it is, and what have its impacts been so far? The course will examine the Affordable Care Act (colloquially known as Obamacare) through the lens of economics. We will examine the main structure of the Affordable Care Act and how the various provisions address (or fail to address) such key economic issues as asymmetric information, market power, and economic justice. Finally, the course will review empirical evidence on the impacts of the law. Prerequisite: R PAD 316 or an equivalent course in statistics. Shared resource course with R PAD 538 (2474).

Weinberg, Stephen
6 Week 3: July 5 - August 12

Online course in Blackboard

R Pad 470
Government Information Strategy and Management (GISM): Comparative and International Perspectives (3)
This course offered online through the Blackboard Learning System. This course draws from literature and case studies to understand cultural differences in the concepts of digital government, practical applications for building information capabilities of organizations across national and cultural boundaries and understanding the behavioral aspects of digital government within the larger society and global economy. Topics include the global information environment; managing information in multi-national settings; information access, security, and privacy; information systems for international organizations; international trends in information and technology policies, and using information and technology for global collaborative networks. Prerequisite(s): Knowledge of the principles, structures, and processes of American government and administration, and some understanding of public administration in other countries or students must contact the instructor for a reading list. Shared resource course with R PAD 570 (2503).

Graduate Courses

R Pad 504
Data, Models, and Decisions I (4)
Introduction to computer-based tools for planning, policy analysis, and decision making. Topics include administrative and policy models in spreadsheets, dynamic models in difference equations and spreadsheets, making decisions with multiple criteria, resource allocation, probability and decision trees, data bases and information management, and telecommunications in local networks and the Internet. Prerequisites: Familiarity with word processing on either IBM or Macintosh platforms.

Mayo, Janet
6 Week 1: May 23 - July 1
MTTh 6:00p.m.-9:15p.m.
HS-15

R Pad 505
Data, Models, and Decisions II (4)
A case-based approach to methods of data collection, statistical modeling, and analysis particularly appropriate to problems in public management and policy. Topics include case studies of data modeling and decisions in the public sector, data collection, exploratory data analysis, population and sampling distributions, confidence intervals, hypothesis testing, correlation, and regression. Prerequisite: Data,
