Courses in Urban Studies

A Usp 456 (=A Gog 496)
Geographic Information Systems (3)
Introduction to the structure, design, and application of data base management systems designed to accept large volumes of spatial data derived from various sources. The student will learn how to efficiently store, retrieve, manipulate, analyze, and display these data according to a variety of user-defined specifications. Prerequisite(s): Familiarity with maps and coordinate systems.

(2061) Swartz, Kurt
6 Week 3: July 5-August 12
MTTh 6:00p.m.-8:30p.m.
