Our strong programs draw students from around the globe with majors in business, the sciences, public policy and liberal arts—just to name a few. Opportunities made possible by our status as one of the nation’s best public research universities. And by top-ranked graduate schools in business, criminal justice, social welfare, public affairs, and public health. No wonder a UAlbany degree is valued so highly by so many.

Lay the foundation for graduate school, without the debt of a private education. Our graduates are routinely accepted into some of the best law, medical, and doctoral programs in the United States. Their UAlbany education gives them two advantages over their graduate school classmates. First, an education that has provided a broad worldview and a solid foundation. Second, less debt. That means smaller student loan payments and fewer financial worries about the future.

Start down the path to a successful career. This is the ideal place to launch your future, no matter what it holds. You’ll get the perfect combination of academic rigor and practical experience. New perspectives from a university that’s a microcosm of the global community. Internship opportunities in a location where government and industry intersect with health care and high tech. And connections with over 166,000 alumni who have already blazed this trail—and are more than willing to open doors for you.
Catherine Bertini ’71
Former Executive Director, United Nations World Food Programme, International Policy Maker

Catherine Bertini devoted more than a decade to changing the way we feed the world. Her successful efforts to improve the efficiency and effectiveness of the World Food Programme serve as a model of United Nations reform. As a result, in 2003 she was awarded the World Food Prize.

Adam Denenberg ’98
Chief Technology Officer, iHeartRadio

A strong believer in “open source” who loves being entrenched in emerging technologies, Adam Denenberg followed up his UAlbany studies in computer science and physics with positions as VP of technology for ROO Media, senior VP of technology with Thomson Reuters, and VP of engineering for the Huffington Post.

Now iHeartRadio’s chief technology officer, Denenberg is responsible for the technology strategy and vision of the all-in-one digital radio and streaming music service, including technical direction and development of new products. He also oversees the technology infrastructure across the company’s network of websites, which includes more than 850 local radio station and talent-specific sites.

Gregory Maguire ’76
Author of Wicked, the basis for the Tony Award-winning Broadway musical

While an undergraduate at UAlbany, Gregory Maguire completed his first novel, The Lightning Time, published in 1978. He continued writing during his time as associate director for the Center for the Study of Children’s Literature at Simmons College (1979-85), and co-founder in 1987 of Children’s Literature New England, Inc.

Fame came with his 10th novel, Wicked: The Life and Times of the Wicked Witch of the West, which spawned the Tony Award-winning Broadway musical Wicked.

Maguire donated his 50 years of personal and professional papers, manuscripts, documents, diaries, and memorabilia to the University in 2012.

Alexis Imprescia ’10, ’11
Senior Tax Accountant, Ernst & Young

Alexis Imprescia came to college determined to work someday in the financial center of the world, New York City. Her game plan: Graduate from a top New York State business school. She received her UAlbany master’s in taxation in May 2011 and was hired that fall as a staff accountant with Manhattan-based “Big Four” accounting firm Ernst & Young.

Imprescia was promoted in October 2013 to Ernst & Young senior tax accountant, focusing on federal compliance and advisory services. She credits her success to the academic quality and reputation of UAlbany’s accounting program, plus the University’s proximity to New York City.

Tokunbo Akinbajo ’04
Assistant Counsel, Pratt & Whitney

Tokunbo Akinbajo chose a career in employment law “to have a positive impact on one of the most important aspects of people’s lives.” He began as a summer associate in 2006 at Jackson Lewis, a national workplace law firm, and was offered a full-time position upon graduation from law school. In 2014, he began working at Pratt & Whitney.

Akinbajo gives credit to UAlbany for his leadership and organizational skills—and for a “financial edge” over classmates who came to law school burdened with debt.

In addition to his B.A. from UAlbany, he holds a J.D. and an M.S. from Boston University School of Law and College of Communications.

Lisa Lillien ’87
Author, media executive, creator of “Hungry Girl” brand

Best known as “Hungry Girl,” Lisa Lillien has television shows airing on both the Food Network and Cooking Channel. She developed a guilt-free, fun-food dieting approach and turned it into a free daily email service that entertains and informs with recipes, food finds, and tips and tricks.

In addition to the million-plus die-hard email subscribers, she reaches many more with a weekly column on WeightWatchers.com, regular contributions to Redbook, and frequent TV appearances. She has authored eight best-selling books—five debuting at number one on the New York Times Best Sellers list.
A MODERN CAMPUS.
A GREAT COLLEGE TOWN.

School pride is everywhere. A troika of stadiums during athletic events and spills over onto the Academic Podium, taking root in you. Before you know it, you’re a Great Dane, too.

College town. The Capital Region is home to 20 colleges, 65,000 students, and a year-round population of over 800,000. No wonder there’s so much going on.

New York’s Tech Valley. We earned the nickname because the Capital Region is a high tech hot spot—an incubator for research, innovation, and entrepreneurial ventures.

Accomplished alumni. Our 166,000 alumni include accomplished graduates in almost every profession, from business, law, and medicine to education, the arts, and communications.

Amazing architecture. Our campus reflects our modern vision and the signature style of Edward Durell Stone. One of the 20th century’s leading architects, he also designed the world famous John F. Kennedy Center for the Performing Arts in Washington, D.C.

Marching Great Danes. The UAlbany marching band plays an important role in spreading Great Dane pride. Their choreographed musical show lights up half-time at Bob Ford Field.

Community engagement. UAlbany has earned national recognition for its community service efforts. Whether through courses or personal volunteerism, more than 7,000 students perform community service each year.
