Introductory Statistics and Quantitative Methods Courses

The following courses are being recommended as “approved equivalent quantitative research methods” courses that may be taken as an alternative to EAPS614. These courses cover basic descriptive and inferential statistics, including at least an introduction to analysis of variance and multiple regression.

- a. Econ 520: Quantitative Methods I (to get the most out of this class, students should have a background in economics).
- b. Math 555: Introduction to Theory of Statistics (Math554 is a prerequisite).
- e. Pub Admin 505: Data, Models, and Decisions II (PAD504 is a prerequisite).
- g. Epsy 630: Statistical Methods II (EPSY530 is a prerequisite).
- h. Bus Msi 513: Statistical Analysis for Managers (uses the same text as EAPS 614). NOTE: this course is often limited to only business students.
