Dear all those interested in the biological sciences,

We are holding the first General Interest Meeting for TriBeta: The National Biology Honors Society this Thursday, November 19th, at 5:10-6:30PM in Biology Building 248. All students are welcome.

During this meeting we will outline the requirements of joining the society, as well as the other opportunities that are available for those who do not make the cut offs. Further, we will outline our goals as a group, and hold an open discussion to hear your ideas concerning what TriBeta should do upon installment.

We are so excited about the progress that has been made over these past few months as we have worked towards reactivating UAlbany's chapter of TriBeta, and want to thank all those who have stood by us from the beginning.

We can't wait to meet everyone!!
