I INF 467: Technology-Based Community Support (3 credit hours)

Student Information

Course description from Undergraduate Bulletin:
Students work on-site with a non-profit to provide technology support. Possible projects could include website creation and development, computer lab support, or networking. At least 100 hours/semester are required. Students will also meet with a faculty supervisor throughout the semester and complete a final presentation of their work. May be repeated for credit up to a total of 6 credits with permission of department.

Prerequisites
Permission of instructor, Informatics juniors and seniors only. STUDENT MUST SECURE A COMMUNITY-SERVICE OPPORTUNITY BEFORE THEY ARE GIVEN A CPN.

Course Schedule
Though the course is a placement with a work schedule totaling 120 hours for the semester, defined by the site supervisor, the student must also attend seminar classes to discuss progress. The class will meet face-to-face about every three weeks. Schedule posted on Blackboard.

Grading & Requirements
This course is letter graded, A-E. Requirements will include, but are not limited to:

- Project Proposal
- Presentation
- Site Supervisor Evaluation
- Individual Reflection

Blackboard will be used as a tool for communication and submittal of status reports and the final summary document, as appropriate.
