Dr. Pieterse is a faculty member in the Division of Counseling Psychology. His research focuses on psychological processes associated with the experience of racism and examines the intersection of racism and health. He currently serves on the Editorial Boards of Cultural Diversity and Ethnic Minority Psychology and The Counseling Psychologist, and is a prior recipient of a health disparities grant from the National Center on Minority Health and Health Disparities.

APRIL 15, 2011 at 12:15 P.M.
