Description: Glossary of Titles – Inquiry Tool (GOT-IT) is an internet-based program that allows state employees to learn more about job titles within New York. State employees can search GOT-IT to find information on state job titles, occupations, career ladders, and career mobility or to find out where jobs are located within NY. Join us as we learn how to use this system to support professional growth.

Presenter: Diane Wallace, Associate Staffing Services Representative, has been with the Dept. of Civil Service for 16 years. For the past four years she's worked at the Career Mobility Office helping New York State employees make their way through the civil service system to advance their careers.
