Some sites in the landscape are very difficult and demanding – such as places with poor soil or very dry conditions. For the best chances of success, it makes sense to choose plants which can tolerate the site conditions. **Master Gardener David Chinery from the Rensselaer County Cornell Cooperative Extension** will discuss what trees, shrubs and perennials can survive and actually look good when planted in tough places in the landscape.

**Tough Plants for Tough Places**

**Gardening: It's good for your health and well-being!**

**Wednesday, May 7**

**12:00 - 1:00 pm**

**Room 110A**

**Registration Deadline: Monday, May 5**
