Thirty years from now the big university campuses will be relics...The college won’t survive as a residential institution

Peter Drucker, 1997
A disruptive innovation is not a breakthrough innovation that makes good products a lot better.

- Clayton Christensen
A conservative innovation is a break-through innovation that allows valuable or useful activities to be preserved for the future.

Internationalization
Technology
A regulator is a device which has the function of maintaining a designated characteristic.
Multinational Universities

Higher education no longer limited by traditional geopolitical boundaries
Moore’s Law
Computing power doubles every 18 months

Amara's Law
We tend to overestimate the effect of a technology in the short run and underestimate the effect in the long run

Kinser’s Corollary
Never bet against the technology!
Any sufficiently advanced technology is indistinguishable from magic

Arthur C. Clark, 1962
The only way of discovering the limits of the possible is to venture a little way past them into the impossible.
