EMPOWERING INNOVATIVE LEADERSHIP

HIGHER EDUCATION CONCENTRATIONS

Master of Science
Doctor of Philosophy
Our Higher Education concentration is designed for professionals interested in assuming transformative leadership positions at colleges and universities, governmental agencies, non-governmental organizations, education-related companies, and other organizations, as well as scholars interested in pursuing rigorous research related to higher education systems and processes.

**OUR ALUMNI**
- Graduates of our Higher Education programs work in a broad range of institutions worldwide. They are also employed in academic affairs, student affairs, institutional advancement, enrollment management, institutional research, higher education policy analysis, international development organizations and private sector education companies.

**FACULTY**
- Students learn from renowned, visionary, and multi disciplinary researchers, policy analysts, and educational leaders engaged in capacity building activities across the globe. All faculty members have doctorates and collectively provide a valuable mix of academic and practical experience in all levels of school and institutional leadership, higher education, private sector education and policy analysis.
