**APPLYING FOR CERTIFICATION**

The information below is for general reference only. Contact Pathways into Education Center (PIE) at (518) 442-4988 or Heidi Audino at haudino@albany.edu for specific information.

Unfortunately, the University at Albany cannot advise you on what coursework to take to satisfy NYSED requirements for an additional certification in Childhood Education. If you have not already done so, you would need to apply to NYSED for an evaluation of your transcripts. They would evaluate what you have done and then inform you of what additional coursework and/or exams you need in order to be eligible for this certification. You would then need to match up coursework to meet their requirements. Additional information on this can be found at [http://www.highered.nysed.gov/tcert/certificate/transeval.html](http://www.highered.nysed.gov/tcert/certificate/transeval.html).

For a list of courses being offered, go to [http://www.albany.edu/registrar/schedule-of-classes.php](http://www.albany.edu/registrar/schedule-of-classes.php) and select the term you are interested in. For individual course descriptions, go to the individual department websites. These can all be accessed through [www.albany.edu/education](http://www.albany.edu/education).
The School of Education offers two programs which are NYSED approved programs leading to your Professional Certification.

The first program is the MS ETP program. This is a 30-32 credit program which can be completed mostly online, yet may require some on campus coursework. Admission requirements and application deadlines can be found at http://www.albany.edu/graduate/educational-theory-and-practice-ms-degree.php.

The second program is the MS Literacy. There are three tracks which can be pursued, one being Literacy, grades 5-12. Upon completion of this program, you would be eligible for an additional certification in Literacy. Admission requirements and application deadlines can be found at http://www.albany.edu/graduate/literacy-ms-degree.php.

There are additional programs which are considered “related Master’s”. (See http://www.highered.nysed.gov/tcert/certificate/relatedmasters.html for information on what constitutes a related Master’s.) The MS CDIT program is one of these programs. Application deadlines and admission requirements can be found at http://www.albany.edu/graduate/curriculum-instructional-technology-ms-degree.php.

The MS in Curriculum Development and Instructional Technology (CDIT) is not a NYSED approved program leading to Professional Certification. Yet, it is considered a Related Master’s Degree per NYSED. Information on this can be found at http://www.highered.nysed.gov/tcert/certificate/relatedmasters.html. To apply for your Professional Certification using this program, you must apply and pay the State Ed application fee on TEACH through the CERTIFICATE PROGRESSION Pathway. You will not have a Program Code. You must also request to have an official, final UAlbany transcript sent to NYSED. If you took graduate courses at another institution, you may be required to send those transcripts also.

We do not offer any programs nor coursework that would lead to a grades 5-6 extension.
