Dirt/Dust		Labs (Hoods)		Steam	
Electric		Lighting		Telephone	
Elevators		Network		Traffic	
Fax		Noise	Noise	Ventilation	
Fire Alarms		Odor		Water/Sewer	

Work Force:

Physical Plant
 Design/Const
 Contractor(s) **XX Pike Company Inc.**

Project Description:

With the change of State Administrations, there have been changes in the approval time of contracts. Our contract was at the Attorney General's Office about 2 weeks longer than normal. In addition, the normal communication channel to the State Comptroller's Office has not and is not currently available. Once the contract is received by the Comptroller, it is anticipated that there will be a back log of contracts to approve. Our best guess is that Pike's contract approval will occur around April 15, 2007, with an outside chance that it may be approved earlier. At this time we anticipate keeping access through Husted available to April 15, 2007 and will update you with any changes as we are apprised.

Thanks much.

Customer Issues:

If you have special concerns or issues please detail in box below and return to the Project Manager.
