PROJECT WORK ALERT
NOTIFICATION

May 11, 2010

UPTOWN CAMPUS

Podium - Chemistry, Physics

Rehabilitation of Light Wells - Phase II

Project / Work Order # 01A37

ESTIMATED START: 05/21/2010  7:00  AM
ESTIMATED END:  06/04/2010  2:00  PM

PROJECT DESCRIPTION/SCOPE:
Contractors will be performing work in Lightwell #13 that will require the building Air
Handling Units (AHU) to be shut down. Refer to the attached table for specific dates
and timeframes.

During the shutdowns, only the AHU supply air will be shut off. The fume hood systems
will remain active, but the amount of make-up air will be decreased. For that reason, it
is not recommended that the fume hoods be used during these timeframes. The fume
hoods should be treated and used in the same manner as they are during routine Friday
morning fume hood system maintenance.

POTENTIAL IMPACT ON SURROUNDING AREAS: (please check all that apply)

- [ ] Change in access/egress
- [X] Dust
- [X] Noise
- [X] Ventilation
- [ ] Other:
- [ ] Odor
