Student Voices from the Field

9:00 - 10:20 AM - Monday, October 6, 2014
East Campus, George Education Center, C-4

Join the Center for Global Health for a special Global Health/First Year Seminar. During the seminar recently returned Peace Corps Masters International & International Internship students will present on their experiences working to address critical global health challenges in countries, such as Haiti, India, Dominican Republic and Uganda. Their personal stories will demonstrate how their recent experiences abroad have shaped how they view public health from a global perspective.
