Making Our Mobility Matter – Comprehensive Urban Mobility Plan for UAlbany

This research discusses and proposes a Comprehensive Urban Mobility Plan (CUMP) for UAlbany ensuring optimal mobility to the students, faculty and staff. CUMP of UAlbany is a strategic plan that seeks to fulfill the current and future mobility needs of people in and around SUNY Albany, in order to enhance their quality of life and urban surroundings. Based on several national as well as international examples (Europe, India), this research addresses various safety, transportation and connectivity issues prevalent in and around UAlbany campus. Several recommendations have been made in this study, if adopted these changes can make UAlbany a greener, safer and well-connected campus for everyone. The original report was generated through the collaborative efforts of students in the Spring 2013 PLN 544 Transportation Planning course.
