

Request for Graduate Admission Deferral

Applicants to any University at Albany graduate program may defer their admission for up to one year from the semester of initial application pending approval from the academic department and the Office of Graduate Admissions. Departmental funding such as assistantships or grants awarded at initial point of admission is **NOT** guaranteed for subsequent semesters if admission is deferred. You must contact the academic department for determination of any future financial support.

Some graduate programs only start in certain semesters. Admission to these programs cannot be deferred to a semester in which the program does not start.

Please complete the following information and mail the form to the address above. Faxed copies are also acceptable and should be sent to (518) 442-3922. If your deferral is approved, you will be notified by mail. Completing this form does not guarantee your deferral will be approved
