

Dutch Quad Women's Leadership Project

...is a Living/Learning Community located on Dutch Quad. This community is designed to bring women together who wish to:

- Participate in Community Service both on and off campus;
- empowerment through enhancing self-esteem;
- learn more about women's issues and women's history;
- develop leadership skills through activism;
- serve as mentors to others, and;
- network through programming and mentoring.

Residents of the Women's Leadership Community will have the opportunity to attend and participate in various programs focused on women's issues and empowerment. They will be able to interact directly with positive women role models who have achieved success in their professional, academic, and/or personal lives through in-house sessions. This program will be dedicated to providing leadership opportunities and a network of resources for its participants while providing a positive presence on campus.

With increasing female leadership in business and in the greater community, the DQWLP will actively work to create an influential network of women both on and off campus.

Participants will be required to:

- Staff the Women's Resource Center 4-5 hours per month;
- participate in bi-weekly meetings/programs;
- participate in a minimum of 2 community service programs a semester;
- work together to plan and execute a campus wide program.

The success of the Dutch Quad Women's Leadership Project is dependent upon the full participation of each of its members. Residents are expected to fulfill these requirements each semester of residency in this community. Any individual who does not fulfill these requirements may be removed from the community and placed in another residence hall.

I have read and understand, and agree to abide by the terms and conditions of the DQWLP housing agreement. I understand that this agreement shall remain in effect throughout my residency in the program. I also understand that if I do not fulfill my requirements I may be reassigned to another residence hall.
