

## TABLE OF CONTENTS

Session 1: Keynote Address (D-1)	
<b>An Academic Speculates on the Future of Intrusion Detection .....</b>	<b>1</b>
Nick Weaver	
Session 2: Intrusion Detection	
<b>Identifying Botnet Traffic on an Enterprise Network .....</b>	<b>2</b>
Mary Henthorn	
<b>Lookahead Pairs and Full Sequences: A Tale of Two Anomaly Detection Methods.....</b>	<b>9</b>
Hajime Inoue and Anil Somayaji	
Session 3: Information System Design & Risk Analysis	
<b>Designing Information Systems Security: Interpretations from British National Health Services Hospital .....</b>	<b>20</b>
Gurpreet Dhillon	
<b>Invited Talk: The Impact of Interdependent Risk on Healthcare Information Infrastructure Effectiveness .....</b>	<b>29</b>
Insu Park, Raj Sharman, H. R. Rao, and Shambhu Upadhyaya	
Session 4: Keynote Address (D-2)	
<b>Understanding Multistage Attacks in the Cyberspace to Address the Grand Challenges in Security.....</b>	<b>36</b>
Shambhu Upadhyaya	
Session 5: Wireless Sensor Network Security	
<b>A Secure Framework for Wireless Sensor Networks .....</b>	<b>37</b>
Bruce Barnett and Daniel Sexton	
<b>Invited Talk: Traffic Analysis Resilient MAC for Multi-Hop Wireless Networks .....</b>	<b>46</b>
Nael Abu-Ghazaleh	
SESSION 6: Terrorism and International Crime	
<b>The Impact of Transnational Criminal Internet Activity in Academic Institutions on Public Safety and Security .....</b>	<b>47</b>
Steffani Burd, Matthew Haschak, and Scott Cherkin	
<b>Countering Hypermedia Seduction for Terrorist Recruiting .....</b>	<b>55</b>
Katharina Von Knop	
SESSION 7: Federated Security Management	
<b>Role-based Security in a Federated File System .....</b>	<b>56</b>
Max Berger and Michael Sobolewski	
<b>Security Policy Management in Federated Computing Environments .....</b>	<b>64</b>
Daniela Inclezan and Michael Sobolewski	
Author Biographies .....	<b>71</b>
Index of Authors .....	<b>76</b>
