Amounts reflected above are rates based on estimated increases for the 2016-2017 academic year and are therefore subject to change. For updated and detailed information about tuition, fees and billing, please visit the Students Accounts website. Students who register for certain courses will also be billed for the corresponding course fee on their tuition invoice.

Exchange students may subtract from this estimate anything that is covered by the exchange agreement between the University at Albany and your university.

### Payment of Bills

Students who have registered for courses will receive electronic invoices (E-Bills) on or about the 20th of each month, beginning in July for the fall and in December for the spring. Payment is always due on the 15th of the following month. An email notification will be sent to your UAlbany email account when your E-Bill is ready to be viewed on the E-pay website. Paper invoices will not be sent.

### Wire Transfers

The University at Albany, State University of New York, has partnered with flywire to offer our international students the ability to make international wire payments for tuition and fees. With flywire, you can pay from any country and any bank. You are also offered excellent foreign exchange rates allowing you to pay in your home currency (in most cases) and typically save money, as compared to traditional banks.

In addition, the posting of the payment into your University at Albany account will be faster, you will be able to track where your payment is in the transfer process via the flywire website, and you will be notified via email when the University receives your payment.
