March 24, 2014  Don’t Get Burned — Seminar on Fraud Detection and Prevention for the Nonprofit Sector

This training seminar offered by the New York State Office of the State Comptroller (OSC) seeks to educate nonprofit staff and board members on how to prevent and detect fraud within their organizations. This session includes:

- Case studies of actual fraud in the nonprofit sector
- Risk assessment model to help identify the most cost-effective detection and preventive controls to use in addressing fraud
- Tools for immediate use, such as a fraud risk-assessment tool, the “Red Flags for Fraud” handbook, an internal control self-assessment survey, a fraud detection checklist, and model versions of an ethics policy and code of conduct
- Interactive participation and question-and-answer opportunities with expert forensic auditors
- CPEs for eligible accountants

AGENDA
Welcome:  David Rousseau, Dean, Rockefeller College of Public Affairs and Policy
Keynote Speaker: The Honorable Thomas P. DiNapoli, New York State Comptroller (invited)
Facilitator Panel: Trainers from the Division of State Government Accountability for the Office of State Comptroller. CFE fraud prevention experts trained to assist nonprofit organization leaders to better understand and manage the risk of fraud in their organizations

May 9, 2014  Optimizing the Impact of Information and Communications Technology in Nonprofit Organizations

AGENDA
Keynote Speaker: Fran Barrett, Interagency Coordinator and Senior Advisor to the Governor of New York on Nonprofits
Leader Panel & Faculty Research Presentation

With the global economic recession, nonprofit organizations throughout the world have had to respond more rapidly to changing conditions in the economic, social, technological and political environments in which they operate. These pressures have renewed emphasis on the need to be more responsive to stakeholder needs and to be more efficient, effective and accountable. One of the major tools with the potential for providing help in doing this is information and communications technology (ICT).
