Cable TV Quick Start Guide

Televions need to be equipped with a QAM digital tuner

Connecting TV to the network

- Verify that your television has a QAM Tuner
  Many TVs made after 2006 have a built-in QAM tuner. If your TV does not have one, a converter box can be purchased online.
  Please reference your owner’s manual or research the make/model of your TV online to see if it has a QAM tuner.

- Program your TV for the campus channel lineup
  Most QAM tuner TVs have a “Channel Search” or “Auto Program” function that will automatically scan the incoming signals and detect the ones that are available. It may be necessary to do a channel search before your TV will allow you to tune to a specific channel.
  Please reference your owner’s manual or research the make/model of your TV online to see instructions for programming.

Don’t Have A QAM Tuner?

- If your television does not have a QAM tuner, you can update your television or purchase a digital conversion box. Just like the TV, you should ensure that the conversion boxes include a QAM tuner and not just an ATSC tuner.

Why join a fraternity or sorority? Fraternity and sorority life embodies the vow to develop students into leaders who uphold the values, oaths, and commitments to our founding principles of scholarship, service, leadership, and community.

Scholarship
Academics is part of our fraternal community values. That’s why we require a minimum GPA in order to become and remain an active member. Many fraternities and sororities have educational programs, such as tutoring and study sessions, which can assist the entire chapters in excelling academically. Since obtaining a degree is the main reason for attending the university, students must keep up their grades if they want to participate in fraternity and sorority life.

Prospective Members
All potential new members must meet certain criteria prior to the start of their new member education/pledge process. If you have any questions or concerns, please contact a member of the Fraternity and Sorority Affairs staff in the Office of Student Involvement.

Interested students should:
- Be at least a second semester freshman with 12 completed college credits.
- Have at least a 2.65 cumulative GPA (no exceptions); transfer students must have at least a 3.0 cumulative GPA from their previous institution (no exceptions).
- Complete Fraternity and Sorority Life 101 on MyInvolvement.

Joining Our Community
On average, when joining an organization students should expect to contribute two to four hours per week for meetings and mandatory activities. If time permits, you can also choose to participate in optional activities such as holding an office, attending social events, and helping out with various projects. Some organizations require more time than others. It is always best to ask questions regarding time commitments during recruitment.
