Consent

What Is Consent?
Affirmative consent is a knowing, voluntary, and mutual decision among all participants to engage in sexual activity.

Consent can be given by words or actions, as long as those words or actions create clear permission regarding willingness to engage in sexual activity.

Silence or lack of resistance, in and of itself, does not demonstrate consent.

Consent to any sexual act or prior consensual sexual activity between or with any party does not constitute consent to any other sexual act.

This definition does not vary based upon a participant's sex, sexual orientation, gender identity, or gender expression.
Consent **can not** be given when a person is incapacitated.

Asleep

Involuntarily restrained

Intoxicated
