The University of Albany Student Chapter of
The Association for Information Science and Technology

Proudly Presents the

5th Annual Open Source Festival
2015

Wednesday, April 15th, 2015, 12:00pm-5:00pm
Campus Center Ballroom, Uptown Campus

OFFICIAL CALL FOR SUBMISSIONS

• Are you working on an Open Source application?
• Would you like to share your experiences using Open Source tools?
• Are you using or producing Open Data or Open Access Documents?
• Are you working on a new technique to benefit Open Source software development?
• Would you like to work with like-open-minded people on projects or challenges?
• Do you base your work on Open Source software? For research, education or commercial applications?
• Do you participate and share on Open Source communities?

The Open Source Festival is a celebration of the vitality and creativity of Open Source communities.

We are looking for sessions that embody the Open Source spirit and its social and technical manifestations. Including: roundtable
discussion, demonstrations, workshops, tutorials and hackerspace demonstrations; focusing on projects, applications, and techniques of Open Source technology and community practices.

The format this year will take advantage of a large open ballroom where presenters will directly interact with small groups of attendees, as they wander around through stations. As a presenter, you can reserve a station for any length of time, for example 30 minutes, 2 hours or you can have a station for the entire day. Submit your out-of-the-box ideas for different activities and corresponding durations. The goal is to create a dynamic and informal environment for open discussions.

The attendees will be a diverse group of open source enthusiasts from academia, industry and government.

This will be our 5th year celebrating this event; last year we had over 200 people in attendance. We expect even more this year.

Please state in your submission:

- Title:
- Description:
- Format: (i.e. workshop, demo, roundtable, workshop)
- Duration:

Organized by UAlbany ASIS&T (Student Chapter) at the College of Computing and Information, University at Albany, State University of New York. Contact us at ualbanyasist@gmail.com if you have any questions.
