MESSAGE FROM THE VICE PRESIDENT FOR RESEARCH

Dear Colleagues:

Please join us for the 13th Annual Research Colloquium on April 30, 2013 from 1:00-3:30 pm as we congratulate all of our federally funded investigators and workforce development trainers for their excellent efforts and successes. Our guest speaker will be Tim Killeen, President of the SUNY/RF and SUNY Vice Chancellor for Research. His topic is: “National and International Global Change Research”, certainly appropriate given our recent awards in this arena!

Now more than ever, it is important that we redouble our efforts to obtain external sponsored funding. Honing grantsmanship skills is one important aspect of increasing the probability of getting funded but like the lottery, if you don’t play, you can’t win! The Division for Research is helping PIs by hosting a series of grant writing workshops. The first of these workshops held on March 18th and 19th emphasized NSF and Private Foundation funding. The response was impressive and there was a wait list for this workshop. Seventy seven faculty and staff registered for the workshop which included a 30 day follow up period of private consulting. Stay tuned for information on the next workshop which will be held in early summer!

Just when the economy is turning the corner and the University budget has stabilized, we are faced with the uncertainties of Federal sponsors continuing resolutions and budgets that will negatively impact our federal funding. As of February 28th, our awards received totaled $44 million, down ten percent. In March we observed that our expenditures are down by 16% totaling $63 million at this time. Despite...
these setbacks, UAlbany researchers have garnered significant wins of external sponsored funds.

UAlbany's brand, "The World Within Reach" is being recognized with federal awards including:

- **Brian Early (Political Science)** who won three awards last fall from the State Department totaling $559,898, to conduct in country outreach activities concerning strategic trade management and legislation development in Mongolia and Saudi Arabia.

- **Thomas Bass (English)** received $259,999 in Department of State funding for a joint U.S.-Tunisian program to assist in designing a curriculum in investigative journalism, developing course materials, and organizing academic exchanges, faculty training, and mentoring.

- **UAlbany's Center for International Development (SUNY/CID)** has been awarded a $13.4 million grant to strengthen legislative development in Cote d'Ivoire. SUNY/CID will help the West African nation’s National Assembly improve its representational and oversight functions by implementing the Center’s "Legislative Strengthening Program."

- **Katie Gonder (Biology)** was funded $975,868 by the prestigious National Science Foundation’s Partnerships for International Research and Education (PIRE) program to conduct an international biodiversity conservation project in Central Africa by developing an evolutionarily-informed framework for protecting Central African biodiversity under climate change, while grounding the results in the socioeconomic realities of the region.

Also of note:

- In November, the **Center for Social and Demographic Analysis** received a five year $1.7 million dollar renewal (funded in 1997) of their Federal NICHD National Population Research Center. **Congratulations to Director Tim Gage (Anthropology).**

- **The School of Social Welfare’s Professor Lynn Warner** will be supported by a three-year, $480,253 competitive grant from the U.S. Department of Health and Human Services' Health Resources and Services Administration intended to increase social workers' capacity to address the mental and behavioral health needs of veterans.

- Two big items for the **Department of Atmospheric and Environmental Sciences (DAES)**: Lance Bosart, **Distinguished Professor**, won National Weather Association’s Lifetime Achievement Award. The Surface Water Prize of the 5th Award of the Prince Sultan Bin Abdul-Aziz International Prize for Water (PSIPW) was awarded to **Aiguo Dai**. The bi-annual PSIPW aims to give recognition to the efforts that scientists, inventors, and research organizations around the world are making in water related fields. DAES has also scored grants including **Liming Zhou** getting $500,000 from NSF Inspire Grant for Understanding Spatiotemporal Extent and Structure of Large Wind Farm Footprint on Weather and Climate by Combining Observational Analysis with Numerical Modeling.

Once again, congratulations to all of our federally funded investigators and workforce development trainers for their excellent efforts and successes.

**Best Wishes,**

James A. Dias, Ph.D.
Vice President for Research
Welcome to the Spring edition of Coeus Corner.

We are still waiting for Spring though!

Our aim with Coeus has always been to help make the submission process as easy as possible for all users and to facilitate data sharing with all offices that support principal investigators in their research programs. Since all post-award offices now have access to the same proposal and award documents as the preaward office, we hope this will help to reduce the number of queries between offices and queries to PI’s. Additionally, as questions relating to use of human or animal subjects or use of biohazardous materials, radioactive materials, etc. are answered in Coeus, the Office of Research Regulatory Compliance and the Environmental Health and Safety Office are automatically notified by Coeus so they are informed of the PI’s intentions/requirements for their project.

We would like to remind the Deans, Center Directors and Chairs, of the importance of completing the “Modify the Authorized Signatory List” form found on our website http://coeus.albany.edu. We cannot make any changes to the mapping in Coeus without written authorization. It is important to notify us as soon as you are aware of any signatory changes within your Department/Center or School to ensure that the proposals can be correctly routed to the authorized signatory and their alternates.

Throughout the year, we continually talk about our campus requirement that all faculty members must be trained and made ‘active’ in Coeus in order to obtain departmental approvals and subsequently submit proposals to the sponsor. We understand that everyone has busy schedules, and we continue to run weekly training sessions to accommodate this, but there has been a marked increase in demand for last minute training. We do our very best to try to help everyone, but please note, that if you wait until the last minute to be trained, we may not be able to train you in time for your proposal to be submitted.

In every issue of Accent, we also stress the importance of not submitting proposals to the Office for Sponsored Programs (OSP) or the agencies at the last minute. In order for us to ensure on time submission and for you to have confidence that the application will arrive at the appropriate agency on time, you must submit your proposal for approval 5 days before the deadline. This allows departmental Chairs and Deans time to review and approve proposals, and the OSP office the necessary time to do its obligatory diligence to comply with all the new and ever-changing regulations. Please try to submit as early as you can to provide adequate time for the application to reach its destination, and for corrections to be made in the event modifications are required by the department or the OSP office after the original submission. For those proposals being submitted system to system through Grants.gov, please also remember that Grants.gov states that we should allow 2 days for validations, so submitting at the last minute could mean rejection of that proposal by Grants.gov or the sponsor and then no time is left for corrections to be made.
Please remember that it is now a requirement for anyone submitting a proposal to a PHS agency, to file a PHS Financial Conflict of Interest for EACH submission. Also note that an ANNUAL UAlbany/RFSUNY Conflict of Interest is also required and for a PHS application both must be on file at the time of application.

For all NON PHS applications, you must have a current UAlbany/RFSUNY Conflict of Interest form on file with the Office for Sponsored Programs at the time of application.

Your Research Administrator (RA) is here to help you with your submissions and to answer any questions you might have. Please contact them as soon as you ‘think’ proposal and give them as much advance notice as you can. This helps everyone involved in the submission process.

TRAINING

Training classes continue to be offered for Coeus Navigation, Budgeting and Routing and Approval. Please use our website (http://www.albany.edu/osp/coeus_home.php) to see the schedule and register for classes for the spring.

We encourage any faculty not already trained to come to training as soon as you decide to submit a research proposal.

The basic Navigation course is typically offered at least once a week, and more as needed. There are currently not any Routing and Approval classes offered, as most signatories have been trained, but if there is a change to the Chair/Dean or their alternates, please let us know and we will arrange for a one-on-one class as needed.

The Coeus Helpdesk is always there for your questions and comments. If you have problems or changes, please let us know. Please call your RA with any questions you might have and/or call us, or email the Coeus HelpDesk (coeushelp@albany.edu) which is monitored continually.

We wish you all an enjoyable and warm Spring!
Please Join Us For The
Thirteenth Annual Research Colloquium

“National and International Global Change Research”

Tuesday, April 30th
D’Ambra Auditorium
Life Sciences Research Building
1:00 – 3:30 PM

Dr. Timothy Killeen, President, The Research Foundation for SUNY and SUNY Vice Chancellor for Research, will be the guest speaker.

A reception honoring our federal award investigators will follow the presentation.

Please RSVP to jduckor@albany.edu by Monday, April 22, 2013

Announcing the Launch of the
SUNY Faculty Research Travel Grant Program
The New RF, February 21, 2013

The SUNY Faculty Research Travel Grant Program aims to improve the competitiveness of research proposals from SUNY faculty by facilitating interaction with perspective federal sponsors. The program grants travel funds of up to $1,000 for faculty to meet with program managers at federal funding agencies.

Faculty members seeking to visit federal funding agency program officers are required to submit an application for a travel grant. Chief academic officers and deans from comprehensive, technology and community colleges are also eligible to apply for funding. The campus must commit to match $.50 for every $1.00 awarded through the SUNY Faculty Research Travel Grant Program.

For more information, refer to the program guidelines and application.
Questions? Email facultytravelgrant@rfsuny.org
SUNY and the RF joined together last year to launch the SUNY/RF Research Collaboration Fund to capitalize on the Power of SUNY by encouraging inter-campus collaborations. That targeted investment of $700,000 generated 65 outstanding proposals, and the nine projects that received funding reflect SUNY’s broad strengths in the areas of biotechnology, chemistry, engineering, medical research, nanotechnology, physics, public health and social sciences.

Based on that success, we are very pleased to announce that the SUNY/RF Research Collaboration Fund is accepting applications for a second round of grants that will be awarded July 2013. Proposals for awards are due at the RF by May 15, 2013.

Proposals will be evaluated for originality and significance of research; student involvement; industry and other outreach efforts, and the ability to attract future federal, state, philanthropic or private funding. Program information and application instructions are available on the SUNY/RF Research Collaboration Fund website.

Should you have any questions, please contact Ivar Strand, RF Director of Sponsored Program Initiatives, at (518) 434-7126.

SUNY is the nation's largest comprehensive system of public higher education. When SUNY campuses join forces, we amplify our expertise, resources and reach in new and exciting ways. We look forward to receiving your proposals.

Tim Killeen
RF President and SUNY Vice Chancellor for Research

David Lavallee
SUNY Executive Vice Chancellor for Academic Affairs & Provost
Pivot brings the COS Funding Opportunities and the COS profile databases (Scholar Universe and COS Expertise) all together into a single integrated tool. Pivot allows users to search for a funding opportunity and instantly view matching faculty from inside and/or outside their institution. Your current COS Username and Password will gain you access to Pivot (http://pivot.cos.com).

**Attention COS Pivot Users**

The New Year brought some changes to Pivot. Most noticeable is the new Pivot interface making Pivot easier to navigate and use. RefWorks-COS provides Training Webinars Live and Recorded. Go to http://www.refworks-cos.com/training/, click on COS Pivot for a list of Upcoming Webinars as well as Recorded Webinars. I encourage you to view the recorded webinar of the COS Pivot Overview of the New Interface.

**Find Funding Now and for the Future**

Pivot provides you with your own homepage to track your most important active funding opportunities or keep an eye on opportunities for future projects. In addition, you can make the most of your time by saving your searches and receiving weekly alerts that meet your criteria.

Not sure where to start? Pivot helps to jump-start the process with the Funding Advisor, which matches funding to the profiles in Pivot. Claim or create your Pivot profile* to receive funding recommendations based on your experience and expertise. Funding matches provide a starting point for funding, and introduces opportunities, sponsors, topics, and keywords that can be used for your own searches.

*Note that newly created profiles are editorially vetted before being visible in Pivot.

**Connect to Collaborators**

Search for potential collaborators at your institution or beyond. Pivot provides user-friendly tools to refine your search that identify people you may not know. In addition, Pivot expedites the discovery process by presenting links from funding opportunities to find possible collaborators. Pivot makes it easy for you to share funding opportunities with colleagues and follow up on items you have shared. In short, Pivot connects you with funding as well as connecting you with other researchers.

If you have any questions about Pivot, please call Linda Nuzback at 437-4559 or email Linda Nuzback
Congratulations to UAlbany’s 2013 National Endowment for the Humanities (NEH) Summer Stipend Recipient

David Hochfelder, Assistant Professor in the History Department, is a recipient of the 2013 NEH Summer Stipend award. We congratulate Dr. Hochfelder and wish him much success in his research.

NEH Summer Stipends support continuous full-time work on a humanities project for a period of two months normally carried out during the summer months. Only two nominations per institution are allowed. This year’s NEH Summer Stipend deadline is September 26th, however, the University has an internal deadline which must be followed. More information can be found in this issue of Accent on RESEARCH in the Humanities and Fine Arts section.

Fulbright Scholar Program
Council for the International Exchange of Scholars (CIES)

Core Fulbright Scholar Program
Flex Awards

In order to engage U.S. scholars currently unable to spend extended periods of time abroad, the Fulbright Program welcomes applications from scholars who propose multiple stays of one to three months in the host country over a period of two to three years. The total proposed visits should equal approximately one semester of exchanges. In addition to their primary research or teaching activities, flex award scholars will be asked to give public talks, mentor students, and otherwise engage with the host-country academic community. Some programs may offer opportunities for multi-country research, but these should be discussed with the appropriate CIES staff. Fulbright flex grants are particularly suitable for scholars whose work requires longer than one year to accomplish, or who cannot be away from their home institutions for a single, lengthy period. They are also helpful in situations where collegial research projects mandate a series of in-person meetings.

For more information about Flex Grants within the Fulbright Scholar Program, and to view a list of countries offering these types of awards, please visit our website: http://www.cies.org/us_scholars/us_awards/catalog/2014-2015/FLEX/
NSF News
NSF Notice Regarding Automated Compliance Checking of FastLane Proposal Submissions
NSF 13-066

Beginning March 18, 2013, the NSF will enhance the FastLane System to begin automated compliance checking for all required sections of full proposals. This will bring NSF systems in line with long-standing proposal preparation requirements as outlined in the NSF Proposal and Award Policies and Procedures Guide (PAPPG) (Chapter II.C.2 of the Grant Proposal Guide (GPG)). Preliminary proposals are not affected by this system enhancement.

The GPG-required sections of a proposal include:

- Project Summary*
- Project Description
- References Cited
- Biographical Sketch(es)
- Budget

- Budget Justification
- Current and Pending Support
- Facilities, Equipment and Other Resources
- Data Management Plan*
- Postdoctoral Mentoring Plan (if applicable)*

*These proposal sections are already being auto compliance checked at the time of proposal submission by FastLane.

FastLane will check to ensure whether or not a document is included; it will not check formatting, page length, or content requirements. (The one exception is the Project Summary, for which page length is checked.)

Proposal submission instructions for conferences, symposia or workshops; international travel grants; or program solicitations may deviate from the GPG instructions. If the submission instructions do not require one of the above sections to be provided, proposers ill need to insert text or upload a document in that section of the proposal that states, "Not Applicable." Doing so will enable FastLane to accept the proposal.

Additionally, proposers providing Biographical Sketches and/or Current and Pending Support information for Principal Investigators (PIs), co-PI(s) or Senior Personnel in a single PDF file associated with the PI, must insert text or upload a document in that section of the proposal that states, "Not Applicable," for any co-PI or Senior Personnel so that FastLane will accept the proposal.

PIs will receive a warning message if any of the GPG-required sections is missing, however, the PI will still be able to forward the proposal to the organization's Sponsored Project Office (SPO). If the SPO attempts to submit a proposal that is missing any of the required sections, they will receive an error message identifying the missing section(s), and FastLane will prevent submission to NSF. After obtaining all required sections, the SPO may submit the proposal to NSF in accordance with established deadline date policy.

Proposals submitted through Grants.gov must include all GPG-required sections or include a document stating that the section is "Not Applicable." Additional information is available on the NSF website at: http://www.nsf.gov/bfa/dias/policy/autocompliance.jsp
Congratulations to our Recent Award Recipients
November 2012 - February 2013

November 2012

Grants

Dikarev, Evgeny
Chemistry
Sponsor: American Chemical Society
Title: “Heterometallic Volatile Molecular Precursors for Cathode Materials of Thin Film Lithium Ion Batteries”
Award Period: 01/01/2013 - 08/31/2015
Amount: $100,000

Larsen, Melinda
The Institute for RNA Science and Technology/Biological Sciences
Sponsor: National Institutes of Health
Title: “Year 2- Extracellular Scaffold Elasticity and Binding Sites in Acinar Differentiation”
Award Period: 12/01/2011 - 11/30/2013
Amount: $171,000

Monaco, Eugene
Professional Development Program
Sponsor: NYS State Governors Office
Title: “Updating Training Materials and Technical Assistance and Training for SLMS-GOER”
Award Period: 08/01/2012 - 12/31/2012
Amount: $10,000

Warner, Lynn A.
Dean’s Office - School of Social Welfare
Sponsor: Department of Health and Human Services
Title: “Upstate New York Mental and Behavioral Health Education Consortium”
Award Period: 09/30/2012 - 09/29/2015
Amount: $480,253

Contracts

Brigham, William
Dean’s Office - School of Business/Small Business Development Center/Dean’s Office - School of Social Welfare
Sponsor: Empire State Development Corporation
Title: “Social Enterprise Economic Development (SEED)”
Award Period: 07/04/2012 - 07/03/2013
Amount: $99,924

Hannan, Edward L.
Health Policy Management and Behavior
Sponsor: NYS Department of Health
Title: “Regional Trauma Quality Improvement Demonstration Project”
Award Period: 07/01/2010 - 09/30/2011
Amount: $483,905

FACULTY FUNDING OPPORTUNITIES

For further information on any of the programs in this newsletter, please refer to the full program announcement provided at the web address listed at the end of each program announcement. If you are not able to access the information you would like, please email Lnuzeback@albany.edu.

The deadline dates indicated refer to the date proposals are due at the sponsoring organization. Completed applications must be submitted for approval, using Coeus, FIVE BUSINESS DAYS before the sponsor deadline. This allows sufficient time for routing and approval by authorized signatories and leaves adequate time for any corrections with a submission to the sponsor.

If you decide to pursue a funding opportunity, it is critical that you contact the appropriate Program Officer to ensure that you have the latest information and application materials. We attempt to provide the most up-to-date information that is available, but this can change at any time.

MATHEMATICS, SCIENCES, AND SOCIAL SCIENCES

Alzheimer’s Drug Discovery Foundation (ADDF)
Grant Opportunities
ADDF funds drug discovery research programs from domestic and international investigators in academia and biotechnology companies. In addition, ADDF initiates, sponsors, and co-sponsors conferences to stimulate new ideas and approaches in areas of interest to the Foundation, bringing together physicians, scientists, and policy makers worldwide.
Deadline: Letter of Intent Due No Later Than August 22 for September 5 Application Deadline
http://www.alzdiscovery.org/index.php/research-programs/grant-opportunities

American Physical Society Sites
Dannie Heineman Prize for Mathematical Physics
This prize of $10,000, a certificate citing the contributions made by the recipient, and travel expenses to attend the meeting at which the prize is presented, is awarded solely for valuable published contributions made in the field of mathematical physics with no restrictions placed on a candidate’s citizenship or country of residence. “Publication” is defined as either a single paper, a series of papers, a book, or any other communication which can be considered a publication.
Deadline: July 1
http://www.aps.org/programs/honors/prizes/heineman.cfm

The Camille & Henry Dreyfus Foundation, Inc.
Senior Scientist Mentor Program
The Camille and Henry Dreyfus Foundation supports emeritus faculty who maintain active research programs with undergraduates in the chemical sciences. The Senior Scientist Mentor Program provides an award of $20,000 over two years for undergraduate stipends and modest research support. Faculty with emeritus status on or before October 2013, and who maintain active research programs in the chemical sciences, may apply to the program.
Deadline: September 11
http://www.dreyfus.org/awards/senior_scientist_mentor.shtml
The Camille & Henry Dreyfus Foundation, Inc.  
Special Grant Program in the Chemical Sciences  
The Foundation encourages proposals that are judged likely to significantly advance the chemical sciences. Examples of areas of interest include (but are not limited to): the increase in public awareness, understanding, and appreciation of the chemical sciences; innovative approaches to chemistry education at all levels (K-12, undergraduate, and graduate); and efforts to make chemistry careers more attractive. Research proposals are not customarily considered.  
**Deadline:** June 5, Letter of Inquiry – August 21, Application  
http://www.dreyfus.org/awards/special_grant_program_chemical.shtml

Environmental Research & Education Foundation (EREF)  
Grants Program  
Researchers are invited to submit proposals on solid waste management issues contained in EREF’s Strategic Research Plan or on educational projects. EREF routinely assesses research needs within the solid waste field via the EREF’s Council, a committee comprised of industry stakeholders and academia.  
**Deadline:** July 15  
http://erefdn.org/index.php/grants/proposal

The Leakey Foundation  
Research Grants  
The Foundation exclusively funds research related specifically to human origins, including paleoanthropology, genetics, primate behavior, and studies of modern hunter-gatherer groups. Specific priorities include: Paleoanthropology of the Miocene, Pliocene and Pleistocene; Primates (Old and New World)—Evolution, behavior, morphology, ecology, endocrinology, genetics and isotope studies; Modern hunter-gatherer groups.  
**Deadline:** July 15  
http://leakeyfoundation.org/grants/overview/

Muscular Dystrophy Association (MDA)  
MDA Research Grants  
MDA supports research aimed at developing treatments for the muscular dystrophies and related diseases of the neuromuscular system. These are the muscular dystrophies (among which are Duchenne and Becker); motor neuron diseases (including ALS and SMA); the peripheral nerve disorders (CMT and Friedreich’s ataxia); inflammatory myopathies; disorders of the neuromuscular junction; metabolic diseases of muscle as well as other myopathies.  
**Deadline:** June 15, Letter of Intent – July 15, Application  
http://static.mda.org/research/guidelines.html

National Academies  
Research Associateship Programs  
The objectives of the Research Associateship Programs are to provide postdoctoral and senior scientists and engineers of unusual promise and ability opportunities for research on problems, largely of their own choice that are compatible with the interests of the sponsoring laboratories; and to, thereby, contribute to the overall efforts of the laboratories.  
**Deadline:** August 1  
http://sites.nationalacademies.org/PGA/RAP/PGA_050491
National Institute on Alcohol Abuse and Alcoholism (NIAAA)
Epidemiology and Prevention in Alcohol Research

The submission of investigator-initiated research grant applications is encouraged to support research investigating the epidemiology of alcohol use, alcohol-related harms, and alcohol use disorders and the prevention of underage drinking, alcohol-related harms, and alcohol use disorders.

**Deadline:** June 16

National Institutes of Health (NIH)
Bioengineering Research Grants

The purpose of this funding opportunity is to encourage collaborations between the life and physical sciences that: apply a multidisciplinary bioengineering approach to the solution of a biomedical problem; and integrate, optimize, validate, translate or otherwise accelerate the adoption of promising tools, methods and techniques for a specific research or clinical problem in basic, translational, or clinical science and practice. An application may propose design-directed, developmental, discovery-driven, or hypothesis-driven research and is appropriate for small teams applying an integrative approach that can increase our understanding of and solve problems in biological, clinical or translational science.

**Deadline:** June 5

National Science Foundation (NSF)
Advances in Biological Informatics (ABI)

The Advances in Biological Informatics (ABI) program seeks to encourage new approaches to the analysis and dissemination of biological knowledge for the benefit of both the scientific community and the broader public. The ABI program is especially interested in the development of informatics tools and resources that have the potential to advance or transform research in biology supported by the Directorate for Biological Sciences. The ABI program accepts three major types of proposals: Innovation awards that seek to pioneer new approaches to the application of informatics to biological problems, Development awards that seek to provide robust cyberinfrastructure that will enable transformative biological research, and Sustaining awards that seek to support ongoing operations and maintenance of existing cyberinfrastructure that is critical for continued advancement of priority biological research.

**Deadline:** August 13

National Science Foundation (NSF)
Cognitive Neuroscience

The Cognitive Neuroscience program seeks highly innovative proposals aimed at advancing a rigorous understanding of how the human brain supports thought, perception, affect, action, social processes, and other aspects of cognition and behavior. Topics may bear on core functions such as sensory, learning, language, reasoning, emotion, and executive processes, or more specialized processes such as empathy, creativity, representation of self and other, or intentionality, among many other possibilities. Topics may also include how such processes develop and change in the brain.

**Deadline:** August 27
National Science Foundation (NSF)
GeoPrisms Program

GeoPRISMS will investigate the coupled geodynamics, earth surface processes, and climate interactions that build and modify continental margins over a wide range of timescales. These interactions cross the shoreline and have applications to margin evolution and dynamics, construction of stratigraphic architecture, accumulation of economic resources, and associated geologic hazards and environmental management.

Deadline: July 2

National Science Foundation (NSF)
Instrument Development for Biological Research (IDBR)

This program supports the development of instrumentation that addresses demonstrated needs in biological research, in areas supported by NSF Biology. The program accepts two types of proposals: Innovation Proposals and Bridging Proposals. The goal is to produce systems that would benefit a broad user community through mass distribution of the technology. This program does not support access to an individual instrument in a user facility, or to data collected thereby; such proposals should be submitted to other relevant programs or agencies.

Deadline: July 26

National Science Foundation (NSF)
Sedimentary Geology and Paleobiology

Sedimentary Geology and Paleobiology supports general studies of: the changing aspects of life, ecology, environments, and biogeography in past geologic time based on fossil plants, animals, and microbes; all aspects of the Earth’s sedimentary carapace - insights into geological processes recorded in its records and rich organic and inorganic resources locked in rock sequences; the science of dating and measuring the sequence of events and rates of geological processes as manifested in Earth’s past sedimentary and biological (fossil) record; the geologic record of the production, transportation, and deposition of physical and chemical sediments; and understanding Earth’s deep-time (pre-Holocene) climate systems.

Deadline: July 18

National Science Foundation (NSF)
Water Sustainability and Climate (WSC)

The goal of this solicitation is to enhance the understanding and predict the interactions between the water system and land use changes (including agriculture, managed forest and rangeland systems), the built environment, ecosystem function and services and climate change/variability through place-based research and integrative models. Studies of the water system using models and/or observations at specific sites, singly or in combination, that allow for spatial and temporal extrapolation to other regions, as well as integration across the different processes in that system are encouraged, especially to the extent that they advance the development of theoretical frameworks and predictive understanding.

Deadline: September 10
ECONOMICS AND BUSINESS

NASDAQ OMX Group Educational Foundation, Inc.
Grants

The mission of The NASDAQ OMX Group Educational Foundation, Inc. is to promote learning about capital formation, financial markets and entrepreneurship through innovative educational programs. Three types of grants are awarded to college/university professors: Academic Study or Research Grants; Curriculum Development Grants are generally awarded at the university level to develop financial markets curricula; Educational Projects or Programs including classroom and extracurricular programs and may also include the creation of new educational materials. All proposals must further financial markets literacy and entrepreneurship in addition to meeting other criteria.

Deadline: August 2, Letters of Inquiry – September 2, Application by Invitation Only

National Science Foundation (NSF)
Economics Program

The Economics program supports research designed to improve the understanding of the processes and institutions of the U.S. economy and of the world system of which it is a part. This program also strengthens both empirical and theoretical economic analysis as well as the methods for rigorous research on economic behavior. It supports research in almost every area of economics, including econometrics, economic history, environmental economics, finance, industrial organization, international economics, labor economics, macroeconomics, mathematical economics, and public finance.

Deadline: August 18
http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5437

National Science Foundation (NSF)
Decision, Risk and Management Sciences (DRMS)

The Decision, Risk and Management Sciences program supports scientific research directed at increasing the understanding and effectiveness of decision making by individuals, groups, organizations, and society. Disciplinary and interdisciplinary research, doctoral dissertation research, and workshops are funded in the areas of judgment and decision making; decision analysis and decision aids; risk analysis, perception, and communication; societal and public policy decision making; management science and organizational design.

Deadline: August 18
http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5423
**EDUCATION**

**Association of American Colleges and Universities**
**Bringing Theory to Practice**

Proposals are requested for projects during 2012-2014 that will promote engaged learning, civic development and engagement, and psychosocial well-being of college and university students. The sponsor is especially interested in efforts that will enable students to have transformational educational experiences, and for institutions to transform and sustain their priorities and practices.

**Deadline:** June 15
http://www.aacu.org/bringing_theory/FundingOpportunities.cfm

**Brady Education Foundation**
**Research and Program Evaluations in Early Education**

The foundation seeks to close the achievement gap by increasing the school readiness of children at risk for poor school outcomes due to environmental factors associated with living in poverty. The foundation pursues its mission by promoting collaboration between researchers and educators via the funding of research and program evaluations in early education. The Brady Education Foundation funds two types of projects: Evaluations of existing model programs, and Innovative research on model development, including both efficacy and effectiveness studies. The foundation favors projects that bring researchers and service providers together to prove and improve the effectiveness of early care and education environments for at-risk children, projects that leverage other funds, projects with the potential to inform or guide policy or funding decisions, and projects that structure time for researchers/evaluators and program providers to collaborate.

**Deadline:** August 15
http://www.bradyeducationfoundation.org/applicationguidelines.html

**Spencer Foundation**
**Field-Initiated Proposals**

Field-Initiated proposals are accepted from applicants with a terrific idea for worthwhile research that does not fit easily into the other Spencer categories. The proposal must address explicitly how the proposed study aligns with the Foundation’s mission of research toward educational improvement, and answers the question whether this proposal promises to advance the Foundation’s purposes more effectively than research that can be funded in the declared areas of interest.

**Deadline:** Continuous for Major Grant Preliminary Proposals – July 9 for Small Grants
http://www.spencer.org/content.cfm/field-initiated-proposals

**Spencer Foundation**
**Organizational Learning in Schools, School Systems, and Higher Education Institutions**

The Foundation funds research grants that study education in the United States and abroad, that range in size from smaller grants that can be completed within a year, to larger, multi-year endeavors. The foundation is interested in advancing understanding of ways to strengthen the capacity of schools and education systems as learning organizations.

**Deadline:** Continuous for Major Grant Preliminary Proposals – July 9 for Small Grants
http://www.spencer.org/content.cfm/organizational-learning
Spencer Foundation  
**Philosophy in Educational Policy and Practice**  
Applications are encouraged to understand educational policy and practice in broad terms, including issues that directly relate to K-12 schools and higher education institutions, but also concerning policies that influence children’s growth and development in the family and in other areas of social life including children’s upbringings, educational issues in family life and in the workplace, the educational effects of welfare policy. Also encouraged are diverse kinds of philosophical research ranging from the highly abstract to the highly applied.  
**Deadline:** Continuous  
http://www.spencer.org/content.cfm/philosophy-in-educational-policy-practice

Spencer Foundation  
**Purposes and Values of Education**  
The foundation values education for its contributions to civic, political, and community life, for its role in advancing social justice, for its capacity to open to people worlds of cultural and artistic excellence, and in the largest sense for its contributions to "human flourishing." One important aspect of such inquiry is the question of the relationship between public and political understandings of educational purposes and values, on the one hand, and educational policies and practices on the other. Analytical, historical, and empirical work that probes effectively and creatively into these issues can contribute toward social decision-making that moves education along constructive paths.  
**Deadline:** Continuous for Major Grant Preliminary Proposals – July 9 for Small Grants  
http://www.spencer.org/content.cfm/purposes-and-values-of-education

Spencer Foundation  
**Teaching, Learning, and Instructional Resources**  
Concerned with advancing the learning and development of children and adults, Spencer is interested in studies that lead to better understanding and improvements in the intellectual, material, and organizational resources that contribute to successful teaching and learning. A key aim of research in this initiative is to support investigations of questions that are grounded directly in teaching practice as well as in research about important aspects of teaching and learning processes that hold promise for enriching opportunities to learn and for guiding informed policymaking. The foundation is particularly interested in studies of teaching and teacher development.  
**Deadline:** Continuous for Major Grant Preliminary Proposals – July 9 for Small Grants  
http://www.spencer.org/content.cfm/teaching-learning-and-instructional-resources
HOMELAND SECURITY

The Harry Frank Guggenheim Foundation
Research Grants

The foundation welcomes proposals from any of the natural and social sciences and the humanities that promise to increase understanding of the causes, manifestations, and control of violence and aggression. Highest priority is given to research that can increase understanding and amelioration of urgent problems of violence and aggression in the modern world. Questions that interest the foundation concern violence and aggression in relation to social change, intergroup conflict, war, terrorism, crime, and family relationships, among other subjects.

**Deadline:** August 1
http://www.hfg.org/rg/guidelines.htm

MacArthur Foundation

The Foundation seeks technical and political solutions to end the world's reliance on weapon usable material (highly enriched uranium and plutonium). Supported policy research projects aim to prevent the theft or diversion of fissile materials from military and civilian sites, ensure that the inevitable growth in nuclear power does not increase the availability of fissile materials for terrorist groups, and end reliance on weapon usable material. Also supported are a limited number of innovative projects that: seek to effectively address, in a stabilizing manner, the strategic implications of deeper reductions in nuclear arsenals; and, provide new insights and approaches to security challenges arising from national efforts to acquire nuclear weapons (e.g. Iran and North Korea).

**Deadline:** Continuous, Letters of Intent – September 1 by Invitation
http://www.macfound.org/info-grantseekers/grantmaking-guidelines/ips-grant-guidelines/
HUMANITIES AND FINE ARTS

LIMITED SUBMISSION
National Endowment for the Humanities (NEH)
Summer Stipends
http://www.neh.gov/grants/research/summer-stipends

Summer Stipends support individuals pursuing advanced research that is of value to humanities scholars, general audiences, or both. Recipients usually produce articles, monographs, books, digital materials, archaeological site reports, translations, editions, or other scholarly resources. Summer Stipends provide $6,000 for two consecutive, uninterrupted months of full-time research and writing. Individuals who have held a major fellowship or research grant, or its equivalent, within the three academic years prior to the deadline are ineligible (see guidelines for details--note: use 2013 guidelines until the 2014 guidelines are published). Individuals who have received Summer Stipends may apply to support a new stage in their projects.

The Dean of each School/College is the point of contact for this process. Interested applicants must provide him/her with a one-page description of their plans to utilize the summer stipend along with a vita no later than Monday, July 8, 2013. The Dean will email his/her ranked recommendation(s) to Dr. James Dias, Vice President for Research, research@albany.edu, and copy lnuzback@albany.edu, no later than Monday, July 15, 2013. NEH deadline for the two selected nominees is September 26, 2013.

Frank and Lydia Bergen Foundation
Grants

Grants are considered for programs that: arrange for musical entertainment, concerts, and recitals appropriate for the education and instruction of the public in the musical arts (paramount consideration, however, is given to traditional classical music programs); aid worthy students of music to secure complete and adequate musical education; and aid organizations in their efforts to present fine music to the public, provided that such organizations are operated exclusively for educational purposes.

Deadline: August 15
https://www.wellsfargo.com/privatefoundationgrants/bergen

The Graham Foundation
Grants to Individual

The foundation makes project-based grants to individuals and produces public programs to foster the development and exchange of diverse and challenging ideas about architecture and its role in the arts, culture, and society. The foundation is interested in projects that investigate the contemporary condition, expand historical perspectives, or explore the future of architecture and the designed environment. The foundation supports innovative, thought-provoking investigations in architecture; architectural history, theory, and criticism; design; engineering; landscape architecture; urban planning; urban studies; visual arts; and related fields of inquiry. The foundation’s interest also extends to work being done in the fine arts, humanities, and sciences that expands the boundaries of thinking about architecture and space.

Deadline: September 15
http://www.grahamfoundation.org/grant_programs?mode=individual
John Simon Guggenheim Memorial Foundation
Fellowships to Assist Research and Artistic Creation

Guggenheim Fellowships are grants to selected individuals made for a minimum of six months and a maximum of twelve months. The purpose of the Guggenheim Fellowship program is to help provide Fellows with blocks of time in which they can work with as much creative freedom as possible. Fellows may spend their grant funds in any manner they deem necessary to their work. The United States Internal Revenue Service, however, does require the Foundation to ask for reports from its Fellows at the end of their Fellowship terms.

**Deadline:** September 19
http://www.gf.org/

National Endowment for the Humanities (NEH)
Enduring Questions

The NEH Enduring Questions grant program supports faculty members in the teaching and development of a new course that will foster intellectual community through the study of an enduring question. This question-driven course will encourage undergraduates and teachers to grapple with a fundamental concern of human life addressed by the humanities, and to join together in a deep and sustained program of reading in order to encounter influential thinkers over the centuries and into the present day.

**Deadline:** September 12
http://www.neh.gov/grants/education/enduring-questions

National Endowment for the Humanities (NEH)
Digital Humanities Start-Up Grants

This program is designed to encourage innovations in the digital humanities. By awarding relatively small grants to support the planning stages, NEH aims to encourage the development of innovative projects that promise to benefit the humanities. Proposals should be for the planning or initial stages of digital initiatives in any area of the humanities.

**Deadline:** September 12
http://www.neh.gov/grants/odh/digital-humanities-start-grants

National Endowment for the Humanities (NEH)
America’s Media Makers: Development Grants

America’s Media Makers (AMM) grants support the following formats: interactive digital media; film and television projects; and radio projects. Development grants enable media producers to collaborate with scholars to develop humanities content and to prepare programs for production. Grants should result in a script or a design document and should also yield a detailed plan for outreach and public engagement in collaboration with a partner organization or organizations.

**Deadline:** August 14
INFORMATION TECHNOLOGY

National Science Foundation (NSF)
Advances in Biological Informatics (ABI)

The ABI program seeks to encourage new approaches to the analysis and dissemination of biological knowledge for the benefit of both the scientific community and the broader public. The ABI program is especially interested in the development of informatics tools and resources that have the potential to advance or transform research in biology supported by the Directorate for Biological Sciences. Three major types of proposals are accepted: Innovation awards that seek to pioneer new approaches to the application of informatics to biological problems, Development awards that seek to provide robust cyberinfrastructure that will enable transformative biological research, and Sustaining awards that seek to support ongoing operations and maintenance of existing cyberinfrastructure that is critical for continued advancement of priority biological research.

Deadline: August 13
http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5444

National Science Foundation (NSF)
Petascale Computing Resource Allocations (PRAC)

The purpose of this solicitation is to invite research groups that have a compelling science or engineering challenge that will require petascale computing resources to submit requests for allocations of resources on the Blue Waters system, a NSF-funded petascale computing system at the University of Illinois. Proposers must be prepared to demonstrate that they have a science or engineering research problem that requires and can effectively exploit the petascale computing capabilities offered by Blue Waters. Proposals from or including junior researchers are encouraged as one of the goals of this solicitation is to build a community capable of using petascale computing.

Deadline: June 30

The Society for Imaging Informatics in Medicine (SIIM)
Research Grants

The SIIM Research and Development Committee accepts applications for $50,000 grants to support original research in the field of imaging informatics as well as a smaller grant for $20,000 for support. Any area of research involving medical imaging informatics is eligible for support as well as development of new hardware, software, or processes to support electronic imaging practice, education, or research. Preference is given to projects at SIIM institutions, projects that contribute to the careers of new or prospective researchers, and projects that have data and software sharing plans.

Deadline: August 6
http://www.siimweb.org/index.cfm?id=63
INTERNATIONAL

Indo-US Science and Technology Forum (IUSSTF)
Indo-US Knowledge R&D Networked Joint Centres
This program enables Indian and American scientists from academia and laboratories (both public and non governmental) to carry out joint research activity by leveraging already existing infrastructure and funding available with the partners at both sides through a linkage established by a virtual networked centre. Knowledge R&D Networked Centres aims to encourage joint project implementation on focal areas of thematic and knowledge research through networking thus, paving way to sustainable interactions by promoting excellence and developing long term relationship based on synergy of activities. Networked Centre may also provide opportunities for integrating research with education.

Deadline: August 15

International Rett Syndrome Foundation (IRSF)
Basic Program
Grants are available for international biomedical research to promote the understanding of MeCP2 in the pathogenesis of the neurobehavioral phenotype of Rett syndrome (RTT). The Foundation seeks to gain a better understanding of the underlying pathology of the disorder leading to an amelioration of the symptoms and a cure for RTT. Research that encompasses innovative therapeutic approaches and state of the art diagnostic techniques is encouraged.

Deadline: July 1, Letters of Intent, Full Application (by invitation) August 19
http://www.rettsyndrome.org/research-programs/grant-programs/basic-program

International Union Against Cancer (UICC)
UICC Yamagiwa-Yoshida Memorial International Cancer Study Grants
The research plan must consist of basic, translational or applied cancer research. Prevention-oriented projects are especially encouraged. The grant's purposes are: to initiate, set up or pursue bilateral cancer research projects with collaborating investigators abroad; to exchange and exploit complementary skills and material; and to receive training in advanced experimental research methods and techniques.

Deadline: July 1
http://www.uicc.org/programmes/geti/our-activities/study-grants
WOMEN AND MINORITIES

American Nuclear Society (ANS)
Mary Jane Oestmann Professional Women’s Achievement Award
This award was established to recognize outstanding personal dedication and technical achievement by a woman for work she has performed in the fields of nuclear science, engineering, research, or education. The award is to be given to a woman whose work in the field of engineering, education or research meets the following criteria: Technical leadership for work performed in her subject area (i.e., she should have a key role in establishing a new curriculum), or have been instrumental in the success of a major research or design effort. This award may be given for lifetime achievement or for a singular outstanding contribution to the technical community.
Deadline: July 1
http://www.new.ans.org/honors/

American Physical Society (APS)
Maria Goeppert Mayer Award
This award is to recognize and enhance outstanding achievement by a woman physicist in the early years of her career, and to provide opportunities for her to present these achievements to others through public lectures in the spirit of Maria Goeppert Mayer. The award consists of $2,500 plus a $4,000 travel allowance to provide opportunities for the recipient to give lectures in her field of physics at four institutions and at the meeting of the Society at which the award is bestowed and a certificate citing the contributions made by the recipient.
Deadline: July 1
http://www.aps.org/programs/honors/awards/goeppert-mayer.cfm

American Physical Society (APS)
Edward A. Bouchet Award
This award is to promote the participation of under-represented minorities in physics by identifying and recognizing a distinguished minority physicist who has made significant contributions to physics research. The program will help publicize the lecturer’s work and career development to the physics community, especially among minority physics students. The Lectureship consists of a stipend of $3,500 plus support for travel to an APS meeting where the recipient will receive the award and give a presentation. In addition, the lecturer will be invited to at least three academic institutions where the impact of the visit on minority students would be significant. The purpose of these visits would be to deliver technical lectures or lectures about his/her specialty, to visit classrooms when appropriate, to assist the college/university in pre-college outreach efforts where appropriate, and to talk informally with both faculty and students about research and teaching careers in physics. Financial support will also be provided for travel to these lectures.
Deadline: July 1
http://www.aps.org/programs/honors/awards/bouchet.cfm
American Educational Research Association (AERA) Research Grants

AERA invites education-related research proposals using NCES, NSF, and other federal databases. Research Grants are available for faculty at institutions of higher education, postdoctoral researchers, and other doctoral-level scholars. Applications are encouraged from a variety of disciplines, such as but not limited to, education, sociology, economics, psychology, demography, statistics, and psychometrics. The Governing Board for the AERA Grants Program has established the following four strands of emphasis for proposals. Applicants are encouraged to submit proposals that: develop or benefit from new quantitative measures or methodological approaches for addressing education issues; include interdisciplinary teams with subject matter expertise, especially when studying science, technology, engineering and mathematics (STEM) learning; analyze TIMSS, PISA, or other international data resources; include the integration and analysis of more than one data set

**Deadline:** Late Summer 2013, check website for updates
http://www.aera.net/ProfessionalOpportunitiesFunding/FundingOpportunities/AERAGrantsProgram/ResearchGrants/tabid/12813/Default.aspx

Lynde and Harry Bradley Foundation Grants

The foundation is devoted to strengthening American democratic capitalism and the institutions, principles, and values that sustain and nurture it. Its programs support limited, competent government; a dynamic marketplace for economic, intellectual, and cultural activity; and a vigorous defense, at home and abroad, of American ideas and institutions.

**Deadline:** August 1
http://www.bradleyfdn.org/application_procedure.asp

---

**LIMITED SUBMISSION**

William T. Grant Foundation
William T. Grant Scholars Program
http://www.wtgrantfoundation.org/

Each School and College may nominate only one applicant. The Dean of each School/College will provide an internal deadline.

The Foundation’s goal is to fund high-quality research to understand and improve the everyday settings (social environments in which youth experience daily life) of youth ages 8 to 25 in the United States. The Foundation’s current interests include research that enhances the understanding of: How youth settings work, how they affect youth development, and how they can be improved; and When, how, and under what conditions research evidence is used in policy and practice that affect youth, and how its use can be improved.

**Sponsor Deadline:** July 8 – The Foundation strongly recommends beginning the online application process by early June. Follow the [Scholars Program Application Guide](http://www.aera.net/ProfessionalOpportunitiesFunding/FundingOpportunities/AERAGrantsProgram/ResearchGrants/tabid/12813/Default.aspx)
Council for the International Exchange of Scholars (CIES)
U.S. Scholars Core Fulbright Scholar Program

The core Fulbright Scholar Program sends 800 U.S. faculty and professionals abroad each year. Grantees lecture and conduct research in a wide variety of academic and professional fields.
**Deadline:** August 1
http://www.cies.org/us_scholars/us_awards/

William T. Grant Foundation
William T. Grant Distinguished Fellows

The Foundation currently supports research to understand and improve the everyday settings of youth ages 8 to 25 in the United States. Specifically, studies that enhance understanding of: how youth settings work, how they affect youth development, and how they can be improved; and when, how, and under what conditions research evidence is used in policy and practice that affect youth, and how its use can be improved. This Fellows program is designed to increase the supply of, demand for, and use of high-quality research in the service of improved youth outcomes.
**Deadline:** August 1, Letter of Inquiry
http://www.wtgrantfoundation.org/funding_opportunities/fellowships/william_t__grant_distinguished_fellows

Library of Congress
Kluge Fellowships

The Kluge Center especially encourages humanistic and social science research that makes use of the Library's large and varied collections. Interdisciplinary, cross-cultural, or multi-lingual research is particularly welcome. Among the collections available to researchers are the world's largest law library and outstanding multi-lingual collections of books and periodicals. Deep special collections of manuscripts, maps, music, films, recorded sound, prints and photographs are also available.
**Deadline:** July 15
http://www.loc.gov/loc/kluge/fellowships/kluge.html

National Institute on Aging
Regional and International Differences in Health and Longevity at Older Ages

This Funding Opportunity Announcement (FOA) encourages Research Project Grant applications from institutions/organizations proposing to advance knowledge on the reasons behind the divergent trends that have been observed in health and longevity at older ages, both across industrialized nations and across geographical areas in the United States. This opportunity is intended to capitalize on provocative findings in the literature which have been insufficiently understood and addressed. It is also intended to capitalize on NIA’s investment in the development of cross-nationally comparable datasets that can be harnessed to study these research questions; these include the Health and Retirement Study (HRS), the English Longitudinal Study on Ageing (ELSA), the Survey of Health, Ageing and Retirement in Europe (SHARE), and the Human Mortality Data Base.
**Deadline:** June 5, October 5

**POSTDOCTORAL FELLOWSHIPS**

**American Cancer Society (ACS) Postdoctoral Fellowships**

This award is to support the training of researchers who have received a doctoral degree to provide initial funding leading to an independent career in cancer research (including basic, preclinical, clinical, cancer control, psychosocial, behavioral, epidemiology, health services and health policy research).

**Deadline:** October 15

http://www.cancer.org/Research/ResearchProgramsFunding/postdoctoral-fellowships?sitearea=RES

**Cystic Fibrosis Foundation Postdoctoral Research Fellowships**

These awards are offered to M.D.s, Ph.D.s, and M.D./Ph.D.s interested in conducting basic or clinical research related to cystic fibrosis. Stipends are $39,000 (first year), $40,100 (second year), and $42,300 (optional third year). Research expenses of $3,750 per year are available, as well. (Indirect costs not allowed.) U.S. citizenship or permanent resident status is required.

**Deadline:** September 11

http://www.cff.org/research/ForResearchers/FundingOpportunities/TrainingGrants/#Postdoctoral_Research_Fellowships

**Damon Runyon Cancer Research Foundation Damon Runyon Postdoctoral Fellowship Award**

The Foundation encourages all theoretical and experimental research relevant to the study of cancer and the search for cancer causes, mechanisms, therapies and prevention. Awards are made to institutions for the support of the Fellow under direct supervision of the Sponsor.

**Deadline:** August 15

http://pivot.cos.com/funding_opps/7716

**The Camille & Henry Dreyfus Foundation, Inc. Postdoctoral Program in Environmental Chemistry**

Applications are accepted from principal investigators that have well-established research efforts in environmental science or engineering. These research activities need not be located in traditional departments in the chemical sciences, and collaboration across departments and institutions is encouraged. Applications most likely to be of interest should describe innovative fundamental research in the chemical sciences or engineering related to the environment. Examples include but are not limited to the chemistry associated with: the climate, the atmosphere, aquatic or marine settings, toxicology, soil or groundwater. Also of interest are chemistry-related energy research (renewable sources, sequestration, etc.), and new or green approaches to chemical synthesis and processing, with a clearly stated relation to the environment.

**Deadline:** August 14

http://www.dreyfus.org/awards/postdoctoral_program.shtml
LAM Foundation
LAM Post Doctoral Fellowship Awards
The goal of this award is to enable postdoctoral investigators to gather sufficient preliminary data to apply for more substantial funding from federal agencies. Examples of competitive LAM proposals include those that focus on the genetic regulation of smooth muscle growth or the development of a smooth muscle cell line that is representative of the LAM lesion. **Deadline:** July 30, Letter of Intent – September 30, Full Proposal
http://www.thelamfoundation.org/research/apply-for-lam-funding

L.S.B. Leakey Foundation
General Research Grants
These grants fund research related specifically to human origins, including paleoanthropology, primate behavior, and studies of modern hunter-gatherer groups. The majority of the Foundation’s Research Grants to doctoral student are in the $3,000-$13,500 range; however, larger grants, especially to senior scientists and post-doctoral students, may be funded up to $22,000. **Deadline:** July 15
http://www.leakeyfoundation.org/?option=com_content&view=article&id=11227

National Science Foundation (NSF)
Science, Technology, and Society (STS)
This program supports scientific research that examines relationships between science (including engineering), technology, and society. Postdoctoral fellowships support researchers within five years of receipt of the Ph.D. in order to enhance their methodological skills and research competence. **Deadline:** August 1

National Science Foundation (NSF)
NSF Earth Sciences Postdoctoral Fellowships
Postdoctoral Fellowships are awarded to recent recipients of doctoral degrees for research and training in topics relevant to Earth sciences. The fellows must develop and implement research projects that seek to address scientific questions within the purview of EAR programs; and plans to broaden participation in Earth sciences. The program supports researchers for a period of up to 2 years with fellowships that can be taken to the institution of their choice (including facilities abroad). The program is intended to recognize beginning investigators of significant potential, and provide them with research experience, mentorship, and training that will establish them in leadership positions in the Earth Sciences community. **Deadline:** July 18

Helen Hay Whitney Foundation
Postdoctoral Research Fellowships
The Helen Hay Whitney Foundation supports early postdoctoral research training in all basic biomedical sciences. To attain its ultimate goal of increasing the number of imaginative, well-trained and dedicated medical scientists, the foundation grants financial support of sufficient duration to help further the careers of young men and women engaged in biological or medical research. The foundation expects that fellowship training will be obtained in an academic setting. **Deadline:** July 1
http://www.hhwf.org/HTMLSrc/ResearchFellowships.html
LIMITED SUBMISSIONS

Procedure to Follow for Limited Submissions
(November 19, 2009)

The University at Albany requires an internal review and selection process for funding opportunities where the program guidelines stipulate a limited number of pre-proposal or proposal submissions. In order to select the best qualified proposal, applicants must follow the University’s Limited Submission Process.

As limited submission funding opportunities are posted to the website, an email will be sent to the appropriate faculty, chair, and or dean. An internal deadline will be given for interested applicants to submit a one page summary of their anticipated project to the Dean of their School/College. If the submission is for a major piece of shared equipment or shared core facilities, a business plan for supporting on-going operations and maintenance is also required.

In cases where the guidelines stipulate a specific number per college/school, the dean will be asked to coordinate the process within their college/school. When guidelines indicate a limited number per institution, the process will begin at the college/school level. In those cases, a deadline will be given for applicants to submit a one page summary to the dean. The dean will then submit recommendations along with the applicant(s) one page summary, by a specified deadline, to Linda Nuzback Lnuzback@albany.edu. Dr. James A. Dias, Vice President for Research, will make the final selection in consultation with the relevant dean(s).

*Deans please NOTE: email Limited Submission recommendations and applicant(s) one page summary to Lnuzback@albany.edu by the deadline indicated.

Selective Current Funding Opportunities Requiring Limited Submission
Note: This is not an inclusive list of Limited Submissions

American Educational Research Association (AERA)  
Dissertation Grants Program  
AERA invites education-related dissertation proposals using NCES, NSF, and other federal data bases. Dissertation Grants are available for advanced doctoral students and are intended to support the student while writing the doctoral dissertation. Applications are encouraged from a variety of disciplines, such as but not limited to, education, sociology, economics, psychology, demography, statistics, and psychometrics.  
**Deadline:** Late summer—check website for updates  
http://www.aera.net/ProfessionalOpportunitiesFunding/FundingOpportunities/AERAGrantsProgram/DissertationGrants/tabid/12812/Default.aspx

American Physical Society (APS)  
Nicholas Metropolis Award for Outstanding Doctoral Thesis Work in Computational Physics  
The purpose of the award is to recognize doctoral thesis research of outstanding quality and achievement in computational physics and to encourage effective written and oral presentation of research results. The award consists of $1,500 and a certificate to be presented at an awards ceremony at the Division of Computational Physics annual meeting and an additional allowance of up to $1000 to travel to the meeting.  
**Deadline:** August 1  

Association for Public Policy Analysis & Management  
Ph.D. Dissertation Award  
Any dissertation that has been completed in the academic years 2011-2012 or 2012-2013 and granted a degree in that period is eligible for consideration. Dissertations from any discipline are acceptable as long as they deal substantively with public policy issues and are nominated by a faculty member of a public policy program that is an institutional member of APPAM. Nominations must come from institutional members of APPAM (but not necessarily the institution that granted the degree).  
**Deadline:** July 5  
http://www.appam.org/awards/phd-dissertation-award/

Graham Foundation  
Carter Manny Award  
The Carter Manny Award supports dissertation research and writing by promising scholars whose projects have architecture as their primary concern and focus and have the potential to shape contemporary discourse about architecture and impact the field. Projects may be drawn from the various fields of inquiry supported by the Graham Foundation: architectural history, theory, and criticism; design; engineering; landscape architecture; urban planning; urban studies; the visual arts; and other related fields. The award assists students enrolled in graduate programs in architecture, art history, the fine arts, humanities, and the social sciences working on architecture topics.  
**Deadline:** September 15  
http://www.grahamfoundation.org/grant_programs/?mode=award
Ewing Marion Kauffman Foundation  
**Kauffman Dissertation Fellowship Program**  
This program is an annual competitive program that awards dissertation fellowship grants to Ph.D., D.B.A., or other doctoral students at accredited U.S. universities to support dissertations in the area of entrepreneurship. The program encourages proposals from a variety of academic disciplines. The dissertation must, however, address research issues of theoretical and practical importance to the domain of entrepreneurship.  
**Deadline:** To be announced in July- last year’s deadline was September 19  
http://www.kauffman.org/kdfp/  

The Leakey Foundation  
**Research Grants**  
The Foundation exclusively funds research related specifically to human origins, including paleoanthropology, genetics, primate behavior, and studies of modern hunter-gatherer groups. Specific priorities include: Paleoanthropology of the Miocene, Pliocene and Pleistocene; Primates (Old and New World)--Evolution, behavior, morphology, ecology, endocrinology, genetics and isotope studies; Modern hunter-gatherer groups.  
**Deadline:** July 15  
http://leakeyfoundation.org/grants/overview/  

Marketing Science Institute (MSI)  
**2013 Alden G. Clayton Doctoral Dissertation Proposal Competition**  
To be eligible, students must be working toward a doctorate in marketing or a related field (e.g., organizational behavior, psychology, economics, strategy, management, finance etc.) at an accredited university, and the dissertation must be no more than fifty percent completed at the time of submission. Proposals will be judged by prominent marketing academics on their importance and potential contribution to business and academia; quality of conceptual development; feasibility and appropriateness of methodology; and creativity. Research design aspects will play a particularly important role in the evaluation process.  
**Deadline:** July 31  
http://www.msi.org/awards/index.cfm?id=63  

NASDAQ OMX Foundation  
**Ph.D. Dissertation Fellowships**  
The mission of The NASDAQ OMX Group Educational Foundation, Inc. is to promote learning about capital formation, financial markets and entrepreneurship through innovative educational programs. Dissertation Fellowships are awarded to colleges or universities on behalf of the candidate.  
**Deadline:** August 2, Letters of Inquiry – September 2, Application by Invitation Only  

National Institute of Mental Health (NIMH)  
**Mental Health Research Dissertation Grant to Increase Diversity**  
The purpose of this Funding Opportunity is to increase the diversity of the mental health research workforce by providing dissertation awards in all areas of research within the strategic priorities of the NIMH to individuals from diverse backgrounds underrepresented in mental health research to support the completion of the doctoral research project.  
**Deadline:** August 22  
National Institute on Aging (NIA)
Aging Research Dissertation Awards to Increase Diversity

The National Institute on Aging continues its initiative to provide dissertation awards to increase diversity in the scientific research workforce engaged in research on aging and aging-related health conditions within NIA's strategic priorities.

**Deadline:** June 16

National Science Foundation (NSF)
Social, Behavioral & Economic Sciences Doctoral Dissertation Research Improvement Grants

These grants provide funds for items not normally available through the student's university. Additionally, these grants allow doctoral students to undertake significant data-gathering projects and to conduct field research in settings away from their campus that would not otherwise be possible. Proposals are judged on the basis of their scientific merit, including the theoretical importance of the research question and the appropriateness of the proposed data and methodology to be used in addressing the question.

**Deadline:** Varies - See website for particular discipline deadline

University at Albany, SUNY
Fellowship on Women & Public Policy

The Fellowship on Women and Public Policy is an intensive leadership development program designed to maximize the skills and contributions of women to achieve excellence in public service. The fellowship prepares women for leadership roles in public policy by fostering the knowledge and promoting the skills necessary to become accomplished public service leaders. The fellowship provides: Policy field experience and academic coursework in public policy and advocacy; Many co-curricular activities such as workshops, conferences, policy field trips, and community service opportunities; and Network Mentoring Program that gives access to over 290 alumnae fellows and other accomplished policy and social change agents.

**Deadline:** September 1
