INTRODUCTION

Congratulations on your choice of the Rockefeller College of Public Affairs and Policy as the place to study Public Administration. As you know, the College has been consistently ranked in the top 20 schools of Public Affairs in the country by US News and World Report for more than a decade. What you may not know is that Rockefeller College represents the best value among the top 25 schools of Public Affairs in the United States, with the lowest total tuition cost and among the lowest costs of living of any city in the country. We combine that with proximity to the largest seat of State government in the nation; strong institutional relationships with local governments in the State, the region and the country; and our location within a three-hour drive of one of the largest concentrations of not-for-profit organizations in the country.

This manual is designed to help you learn about the requirements for successful completion of the MPA Program. It is consistent with, but does not substitute for, the University’s rules and requirements for master’s study contained in the Graduate Bulletin (www.albany.edu/graduatebulletin).

As a Master’s student, you are personally responsible for knowing and acting upon the information contained in both the Graduate Bulletin and this MPA Manual. In particular, the rules and regulations in the Graduate Bulletin and this manual at the time of your initial matriculation in the master’s program form a mutual agreement between you and the University about degree requirements. For this reason, it is wise to save a copy of the MPA Manual that was in force at the time you began your studies as an MPA student.

Review this manual regularly to make sure you understand and follow all your program requirements. To get answers quickly, go to the FAQ section on the Rockefeller College website at http://www.albany.edu/rockefeller/pad_faq_mpa.shtml. If you still have questions about the information in this manual or the Graduate Bulletin, contact your academic advisor, the MPA Program Director, Prof. Stephen Weinberg, at sweinberg@albany.edu or in Milne 213B, or the Director of Student Affairs, Sheena Loughlin, at sloughlin2@albany.edu, (518) 442-3248 or in Milne 107.
**THE PROGRAM**

Our faculty pride themselves on preparing students for successful careers in the public service. We aim to provide our MPA students with the skills they need to achieve that success.

MPA PROGRAM OVERVIEW

ORIENTATION

All new students are required to attend Welcome Week during the week before the beginning of their first fall semester in the program. Welcome Week includes an intensive series of workshops on topics such as algebra, computer skills, and professional memo writing; social activities to help you network with your new classmates; and a rigorous team-based case study exercise to gain familiarity with the sorts of assignments you can expect in the program. You can access a complete schedule of Welcome Week activities at www.albany.edu/rockefeller/welcomeweek. Welcome Week is an integral part of Professional Applications I (PAD 507), a required first-semester course for all incoming MPA students. It is meant to give students a chance to become familiar with the program, to meet fellow incoming students, and to meet faculty members.

If you are starting the MPA program in the spring semester, you must plan to enroll in Professional Applications I in your first fall semester in the program, and attend Welcome Week in the preceding summer.

MAIL/E-MAIL

Before you can access your University email account, you must sign up for MyUAlbany. If you need help logging in to MyUAlbany, go to http://www.albany.edu/rockefeller/gateway_docs/pad/How%20to%20register%20for%20classes.pdf.

E-mail and the student LISTSERVs are the primary means of communication for the Department. Event notices, course scheduling changes, and University announcements are all posted to the LISTSERVs, so all students are expected to sign up for the list appropriate to their degree program as soon as they arrive (instructions are in your orientation packet). Your Albany email address will typically have the following format: yourfirstinitialfollowedbylastname@albany.edu. Although students may sign up for programmatic listservs using any email they wish, all official University correspondence will be sent to students’ University email account. Therefore, students should check their University email regularly.

Each student is also assigned a mail file in the first floor mailroom located on the Western Avenue end of Milne Hall next to the Dean’s office (across from our career services office). This file should be checked regularly for postal mail, fliers, graded assignments, and other communications. In order to receive mail at the correct address, students should make sure that their address information is correct under Demographic Data on their MyUAlbany homepage and that they have provided a local mailing address in addition to their permanent address.
MINIMUM COMPETENCIES

The ability to understand and use college math and algebra is essential for success in the MPA program. In cases where a math deficiency exists (i.e., GRE Quantitative score under 156), students may want to consider taking an undergraduate math class or finding a tutor. A math diagnostic quiz will be administered during Welcome Week and students will have the opportunity to participate in remedial math sessions during the week. These math sessions can help students review key material and assess specific deficiencies. As an on-going math resource, the department recommends Bleau, Clemens, and Clemens (2013), Forgotten Algebra 4th Edition, Barron’s Educational Series, 978-1438001500. It is useful to use more than one resource to review technical material; students are also directed to the Khan Academy website (https://www.khanacademy.org/math/algebra-home), especially for material on linear equations, systems of equations, and functions (but NOT solving quadratic equations, factoring, dividing polynomials, or anything involving complex numbers).

The ability to write English well is also essential for success in the MPA program. The University offers tutoring through the Writing Center on the Uptown campus. We encourage students to take advantage of this service if they feel that they need help with writing. Contact the Writing Center at (518) 442-4061 or http://www.albany.edu/writing/.

COURSE REQUIREMENTS

The course requirements for the MPA program consist of two parts: core courses and concentration courses. The core consists of six semester-length courses, two Professional Applications Modules (PAD 507 and PAD 508), and a capstone paper (PAD 509, usually completed in the last semester in the program). Core courses are required of all students. In some cases, however, where students have appropriate educational background, they may petition to waive or transfer in credits to substitute for a core course (see the second section of this Manual for a list of core courses). Procedures for waiving a course and transferring in credit are specified below.

MPA students must have successfully completed or be enrolled in at least 5 of their 6 semester-length core courses, including a minimum of 3 out of the 4 quantitative courses (PAD 501, 503, 504, and 505), before enrolling in a concentration course. Academic advisors may authorize rare exceptions to this rule in unusual circumstances. The primary exception to this rule is to take a concentration course which is offered only every other year.

Students enrolled in the combined BA/MPA program must take some combination of the following classes, not to exceed 12 total credits, during the undergraduate portion of their program: PAD 500, PAD 501, PAD 504, PAD 507, and PAD 508. PAD 504 must be taken before or concurrently with PAD 501, unless a student already has substantial experience with Excel. Combined BA/MPA students may not register for any advanced graduate courses while an undergraduate.

Students take at least five concentration courses, which should be chosen based on long-term professional interests. To count towards this requirement, a course must provide at least 3 academic credits.
The department offers six concentrations. Students may choose to take (a) all 5 courses within one concentration or (b) a three-course concentration and a two-course concentration. Students should choose concentrations based on their career goals and should work closely with an advisor to determine which concentrations best match their professional interests and to identify the specific courses they will take within that area. Where appropriate, a student working closely with his or her advisor may modify the course list for a particular concentration. Any such modifications require the advisor’s approval. Some of the concentrations are further sub-divided into sub-concentrations, with specific requirements for different tracks. Detailed information about concentrations appears in the second section of this manual.

In addition to coursework, students must complete a substantial career experience requirement (see below).

In order to be cleared by the Office of Graduate Studies to receive the MPA degree, at graduation students must have satisfied the requirements for at least 11 full-length (3- or 4-credit) courses, two professional application courses, the capstone paper (PAD 509), and a substantial career experience.

Clearance of degree requirements is based on the number of courses completed, not the number of credits. All courses must be completed with a grade of C or higher to count towards the completion of the degree, and the overall program GPA must be 3.00 or higher.

STATUTE OF LIMITATIONS

The MPA program must be completed within six years of the time students are admitted into the program. There is no continuous registration requirement. However, students who opt to take a semester off should note that without enrollment, they do not have access to many services. This includes those offered by the Health Center, Counseling Center, University Libraries, Parking & Mass Transit and Recreation. In addition, such students may be unable to defer the repayment of prior college loans or qualify for financial aid.

CALCULATION OF GPA

For academic standing and degree clearance purposes, the program GPA is calculated on the basis of letter-graded courses completed at the University at Albany and counted towards the MPA degree. If a student transfers credits from a different institution, including other SUNY campuses, those classes do not count towards the GPA.

The GPA is computed as follows:

1) Convert each letter grade onto a 4.0 scale, in which an A is a 4.0, an A- is a 3.7, a B+ is a 3.3, a B is a 3.0, etc.
2) Calculate the average of these scores, weighting by the number of credits each course is worth.

There are two special cases that are not accounted for in the GPA shown on the student transcript, but that the department corrects for in its own calculations.
First, a student may re-take any course. The transcript will continue to show every instance of the course, and the GPA reported on the transcript will include every instance of the course. For degree purposes, however, only the highest grade for any given course will count.

Second, students may have taken University at Albany courses towards the MPA degree before matriculating into the graduate program. For example, students in the combined BA/MPA program may count up to 12 credits of MPA courses taken as undergraduates towards their MPA degree. Grades from these courses will be included in the GPA for academic standing and degree clearance purposes.

CAREER EXPERIENCE AND INTERNSHIP PROGRAM

The career experience requirement may be satisfied by the following relevant experiences in the public or nonprofit sector: 1) concurrent full-time employment, 2) two years prior full-time employment, or 3) 480 hours (two semesters) of service in an approved, supervised internship. The manner in which the career experience has been satisfied must be noted on the Completed Degree Program sheet and approved by the Director of Internships and Career Services, your faculty advisor, and the Department Chair. A copy of the Completed Degree Program sheet is included in the Appendix and can also be downloaded from the Department of Public Administration and Policy website.

If you believe that you can satisfy the career experience requirement through work outside of the department’s internship program, you are strongly encouraged to speak to the Director of Internships and Career Services within your first semester.

Prior to taking an internship, students should schedule an individual advisement appointment with the Director of Internships and Career Services. The Office of Career Development assists students in identifying internship opportunities. The Director of Internships and Career Services must approve all internships prior to a student starting his/her hours of service.

To be eligible for an internship, students must maintain a satisfactory grade point average. Students with a GPA below 2.85 will not be eligible to participate in an internship. Students with a GPA between 2.85 and 2.99 may be eligible for internships with the approval of the Committee on Academic Standing and Retention.

Further information and updates may be obtained from the Office of Career Development in Milne 105, or by contacting the office at 518-442-5253 or Rockefeller.Careers@albany.edu.
ACADEMIC & GRADUATION REQUIREMENTS

ACADEMIC STANDING

To meet the minimum standards set by the University at Albany, all graduate students must maintain a cumulative grade point average of not less than 3.00 in their graduate coursework. For academic standing and degree clearance purpose, cumulative GPA does not round up; therefore, a 2.99 does not round up to a 3.00.

All student records are reviewed at the end of each semester by the Departmental Committee on Academic Standing and Retention. Students who have a GPA below 3.00, after completing at least twelve credits, will be placed on academic probation. To return to good academic standing, students must raise their GPA to at least a 3.00 after taking the lesser of twelve credits or the remaining courses required to complete the degree program. These courses must be completed within one academic year from the date of notification. Students who do not raise their GPA to at least a 3.00 will be separated from the program.

DEGREE CLEARANCE

To graduate, a Graduate Degree Application must be filed online via MyUAlbany. The deadline for online degree application is posted on MyUAlbany at the beginning of each semester. A fully completed and signed Completed Degree Program sheet must also be on file with the Director of Student Affairs at that time. Students must have a 3.00 or higher cumulative GPA to be approved for degree clearance by the Office of Graduate Studies.
MPA PROGRAM ADMINISTRATIVE PROCESSES

ADVISEMENT

Upon acceptance into the MPA program, every student is assigned an advisor. The advisor helps the student decide what course concentrations best fit his or her professional interests. Advisors are also expected to monitor the student’s progress and to ensure that the student complies with all procedural requirements on a timely basis. At a minimum, these duties include advising the student, providing the student with an Advisor Verification Number (AVN) to permit registration each semester, and assisting the student in the completion of the Tentative Degree Program Planning sheet (to specify fulfillment of course requirements), the Completed Degree Program sheet, and other academic documents, as appropriate.

Students may request a new advisor for any reason. Such a change is recommended if an assigned advisor is not associated with at least one of the student’s chosen concentration areas. To change advisors, the student should secure the agreement of another faculty member to serve as the new advisor and then notify the Director of Student Affairs of the change using a signed Change of Advisor form or by sending an email, copying your new faculty advisor, to rockgradservices@albany.edu. This form is included in the appendix to this manual and is available on Rockefeller College web site at http://www.albany.edu/rockefeller/gateway_docs/pad/0_advisor%20change.pdf.

TENTATIVE DEGREE PROGRAM PLANNING SHEET

A Tentative Degree Program Planning (TDPP) sheet is a planning document to be completed by the student and advisor. It outlines how the MPA degree requirements will be met. It must be signed by the student, advisor, Director of Internships and Career Services, and Department Chair and is given to the Director of Student Affairs to become part of the permanent student record. (Students should work with their advisor to obtain signatures.) A Tentative Degree Program Planning sheet should be approved prior to beginning work in a concentration. A copy of the Tentative Degree Program Planning sheet is included in the appendix of this manual and can be downloaded from the Rockefeller College website at http://www.albany.edu/rockefeller/gateway_docs/pad/0_MPA%20tdpp.pdf.

COMPLETED DEGREE PROGRAM SHEET

The Completed Degree Program (CDP) sheet is a final document outlining how the student has met the requirements of the MPA degree. It should be completed by the student and the advisor by the end of the fifth week of the student’s last semester in the MPA program. The Completed Degree Program sheet is used by the Office of Graduate Studies to review the student’s credentials for degree clearance. A copy of the Completed Degree Program sheet is included in the appendix of this manual and can also be downloaded from the Rockefeller College website at http://www.albany.edu/rockefeller/gateway_docs/pad/MPA_cdp_new.pdf.
PROCEDURE FOR WAIVING REQUIRED COURSES

Students may waive any core or required elective course if they have completed equivalent academic coursework in another setting. Waiving an introductory course allows you to move directly to more advanced courses without repeating material you already know. You will still be required to complete 11 full-semester courses. (If you have completed work at the graduate level at another institution, see the policy for transferring credits.)

The professional development sequence (PAD 507 and PAD 508) may be waived on the basis of suitable work experience and courses/trainings in specific areas (see http://www.albany.edu/rockefeller/welcomeweek/ww2016/507_508%20Waiver%20Policy%2016-17.pdf). Because students must generally waive both courses, this is considered one waiver; only the PAD 507 instructor needs to approve it. If you waive 507/508, you will still be required to complete 4 credits.

Students seeking permission to waive a core course must file a petition to the core course faculty explaining the reasons for the request. File this petition using a course waiver form, which is included in the appendix to this manual.

Students anticipating that they will be able to waive a required course are strongly encouraged to file their petition during their first semester in the program, so that they will know the result of the petition in time to plan accordingly. They are also strongly urged to actually get the documents signed and filed with the Director of Student Affairs; verbal agreements made years earlier will not be considered binding by the department, especially if the relevant faculty member has left in the interim. A copy of the Course Waiver Form is included in the appendix of this manual and can also be downloaded from the Rockefeller College website at http://www.albany.edu/rockefeller/gateway_docs/pad/0_Course%20Waiver%20Form.pdf.

The procedure is as follows:

1. The student first consults with his/her advisor about the advisability of waiving a course (should occur during Welcome Week or early in the student’s first semester).
2. The student then meets with one of that course’s designated instructors (see page 11) and gives the instructor relevant materials from the course that support the waiver request, such as the syllabus or textbook from the course. The student will also need to provide evidence of the final grade for any coursework relevant to the waiver. The course instructor might ask for additional materials, potentially including a test of ability.
3. If the course instructor agrees it is appropriate for the student to waive the course, the student then submits a course waiver form, signed by the student’s advisor and by the instructor of record, to the Department Chair. The Department Chair will make a final determination based on the recommendation of the faculty and supporting evidence provided.
4. When filling out the Completed Degree Program sheet, the student should list the course, and write “waived” instead of a grade/instructor.
Faculty will err toward requiring the course in all cases, so it is the responsibility of the student to provide sufficient proof of relevant coursework or background in the relevant subject area. There are no appeals of course waiver decisions.

The following faculty are authorized to consider waivers to the relevant Core courses.

RPAD 500: Stephen Holt or Ellen Rubin
RPAD 501: Gang Chen or David Matkin
RPAD 503: Lucy Sorensen or Stephen Weinberg
RPAD 504: Luis Luna-Reyes or Erika Martin
RPAD 505: Gang Chen or Ashley Fox
RPAD 506: Mitch Abolafia or Edmund Stazyk
RPAD 507/508: Ellen Rubin

TRANSFER OF CREDIT

A Transfer of Credit form, found in the appendix of this manual, is used to request transfer of graduate credit from another accredited institution. The transferred course may be used as an elective or as an approved substitution for a required/optional course in the MPA program. Transferred credits reduce the number of courses a student must complete at SUNY Albany. If they have already matriculated into the MPA program, then students must obtain approval for a course before registering at another institution.

Students must receive a grade of B or better in order to transfer credit. In submitting a transfer of credit request to your advisor, include the description of the course to be transferred in, a detailed syllabus, and any papers and exams you have from the course.

Normally a transfer graduate course of 3 or 4 semester credits would equate to a 4-credit course in the MPA program; if you took your courses in a program with a “quarter” system, please confer with the MPA Director. University policy requires at least 50% of the credits toward the degree to be taken at the University at Albany. Courses transferred for credit will not be assigned a grade and will not count toward a student’s overall GPA. For more information, please refer to the University’s Graduate Bulletin.

A course that is transferred in place of a Core course will need to be approved by the designated instructor for that course (see the procedures for waiving courses, above).

A course that is transferred for concentration credit must be relevant to the concentration, but does not have to be equivalent to a specific course taught at SUNY Albany. If an equivalent course exists, that instructor will need to approve the waiver. The MPA Director will determine if such approvals are needed.

An MPA student who has already completed one master’s degree program at the University at Albany may apply for admission with Advanced Standing. The award of advanced standing may allow the student to apply up to 30 percent of the credits required for the MPA, provided they have been completed recently, by using appropriate courses from the first completed master's
degree program. Please see the Policy of Advanced Standing and Resident Study for a Second Master's Degree in the University’s Graduate Bulletin.

An MPA student who has already completed a certificate program at the University at Albany may be able to count courses from the certificate towards the MPA, within limits determined by the certificate program. All coursework for certificates sponsored by the Department of Public Administration may be counted in full towards the MPA.

Questions about transferring credit should be directed to the MPA director.

INCOMPLETE GRADE PROCEDURES

If a student is unable to complete the coursework within the semester, the instructor may choose whether to allow an incomplete or assign a grade based on the work completed during the term. Incomplete grades will generally be granted only for circumstances beyond the student’s control. The date for the completion of the work is specified by the instructor and will generally fall before the end of the following semester. The grade of I is automatically changed to E or U unless work is completed as agreed between the student and the instructor. It is the student’s responsibility to seek additional time to finish incomplete coursework before the end of the semester. The student is also encouraged to double check the transcript to ensure that the grade was changed correctly.

HUDSON-MOHAWK CROSS REGISTRATION PROGRAM

The Cross Registration Program by the Hudson Mohawk Association allows students the opportunity to take courses at participating institutions while still enrolled at The University at Albany. Authorization to cross-register will be given to students if the proposed course(s) is not offered by The University at Albany at any time. No extra tuition charge is assessed to full-time matriculated students with at least one-half of the credits registered through the University at Albany. The transfer credit does not carry a grade; therefore any such course will not contribute to the student’s GPA. See http://www.albany.edu/registrar/hudson_mohawk_cross-registration.html for more information.

CODE OF CONDUCT

In all matters, faculty and graduate students will communicate and otherwise deal with one another and with staff members in a manner that is appropriate for a professional academic program. Students are expected to exhibit due respect for their fellow students’ and professor’s dignity, sensibilities, responsibilities and authority. Behavior and communications of any type that can reasonably be interpreted to constitute an abuse of authority, egregious nuisance or intimidation, or that systematically interfere with the fair opportunity for others to express their views, or that persistently disrupt the educational process, are not acceptable and will be subject to sanction by the Department of Public Administration and Policy and/or the University at Albany. Offensive behavior or communication that in a single instance may not rise to the level of being actionable can do so if it is persistent.
Specifically, the Department of Public Administration and Policy expects students to practice:

- Respect for all members of our community and for the space we share.
- Professionalism in all things, including the pursuit of intellectual and academic excellence.
- Recognition of the value of different opinions in our "free marketplace of ideas."
- Individual accountability for actions inconsistent with this Code of Conduct.

Members of the Rockefeller College community have a personal responsibility to integrate this code into all aspects of their experience.

**ACADEMIC INTEGRITY**

All students are expected to be highly familiar with the University’s Standards of Academic Integrity, which are described in the Graduate Bulletin. The Bulletin standards include **BUT ARE NOT LIMITED TO** the following:

- Identifying the contributions of sources within academic work and following appropriate citations practices
- Operating within each instructor’s guidelines on how and when it is appropriate to collaborate with others during assignments
- Turning in only the student’s own work
- NOT handing in the same assignment—or substantially the same assignment—to multiple courses without the permission of the relevant instructors, **including** in cases where the student is repeating the same course
- NOT giving or receiving unauthorized assistance before, during, or after an examination.

See the Graduate Bulletin for a complete discussion of the University’s integrity standards and of the procedures followed when these standards are violated.
ACADEMIC PROGRAM

CORE COURSES

PAD 500: Institutional Foundations of Public Administration (4 credits)
This course focuses on tensions and tradeoffs between important values in public administration and the institutional foundations of the public service in political, bureaucratic, and legal settings. Major topics include dimensions of the public sector, characteristics of institutional settings, history of the field, environmental context, and functions, roles, behaviors, and structures.

PAD 501: Public and Nonprofit Financial Management (4 credits)
This course teaches students how to use financial information to make decisions in governmental and not-for-profit organizations. It first focuses on operating budgets, tools for short-term decision-making, financial control processes, capital-budgeting decisions, and the analysis of long-term financial options. It then focuses on the recording and reporting of financial information and using reports to analyze the financial position of governments and nonprofit organizations.

Prerequisites: previous/concurrent registration with PAD 504: Data, Models, and Decisions I or familiarity with Microsoft Excel.

PAD 503: Principles of Public Economics (4 credits)
This course examines the application of market mechanisms such as prices, profits, and information in allocating resources in major domestic policy areas. Topics include the economics of markets, consumers, and firms; economic justice and economic efficiency; and the potential rationales for government intervention in the market.

Prerequisites: familiarity with college algebra

PAD 504: Data, Models, and Decisions (4 credits)
An introduction to computer-based tools for planning, policy analysis, and decision-making that covers topics such as administrative and policy models in spreadsheets, dynamic models in difference equations and spreadsheets, making decisions with multiple criteria, resource allocation, probability and decision trees, databases and information management, and telecommunications in local networks and the Internet.

Prerequisites: Familiarity with word processing and college algebra.

PAD 505: Statistics for Public Managers and Policy Analysts (4 credits)
Statistical methods appropriate to problems in public management and policy. Topics include case studies of data modeling and decisions in the public sector, data collection, exploratory data analysis, population and sampling distributions, confidence intervals, hypothesis testing, correlation, and regression.

PAD 506: Foundations of Public Management (4 credits)
An introduction to the theory and practice of public management. Topics include individual, group level, and organizational issues such as creating productive work environments, working within human resource systems, developing a learning organization, facilitating innovation, and managing across organizational boundaries. Cases and exercises focus on practical applications of concepts covered.

Prerequisites: PAD 500: Institutional Foundations of Public Administration (or permission of the instructor)
PAD 507: Professional Applications I (2 credits)
This module is normally taken during the first fall that a student is matriculated in the MPA program. It emphasizes the early development of professional skills including writing decision memos, making presentations, developing professional networks, and confronting ethical dilemmas. Students registered for this module must also attend the August Welcome Week sessions.

Registration available only to degree-seeking students in Public Administration and Policy

PAD 508: Professional Applications II (2 credits)
This module continues the focus on skill development introduced in Professional Applications I with extensions to a broader range of writing scenarios, as well as working with diverse populations. Students generally take this module in the semester immediately following registration for PAD 507.

Prerequisites: PAD 507: Professional Applications I. Registration available only to degree-seeking students in Public Administration and Policy.

PAD 509: Capstone Paper (1 credit)
This capstone paper helps students review and assimilate their professional career experience and the academic components of the MPA program. Students work with a tenure-track or Public Service Professor to complete a portfolio of their written work, as well as professional reflection exercises. This project is usually undertaken in the student’s final semester in the program. To prepare for the portfolio assignment, students are strongly encouraged to save their main assignments throughout the program. As with everything else they ever do, students are strongly encouraged to save back-ups outside their main computer.

Expected Sequencing of Courses:

It is generally expected that a typical student will complete the program in the following order. Your actual sequence will be determined in consultation with your academic advisor. In some circumstances, a student may take one concentration course before completing the Core. Under no circumstances should a student enter the final semester still requiring a Core course.

First semester (or first 14 credits, for part-time students): PAD 500, 501, 504, and 507

Second semester (or second 14 credits): PAD 503, 505, 506, and 508

Third semester (or next 12 credits): three concentration courses

Fourth semester (or next 9 credits): two concentration courses and PAD 509
Expected Core Course Offerings by Semester:

The program will offer at least one evening section of every full (3-4 credit) Core course every semester. The department generally schedules Core courses as follows:

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Fall semester</th>
<th>Spring semester</th>
<th>Summer Session*</th>
</tr>
</thead>
<tbody>
<tr>
<td>PAD 500</td>
<td>two sections</td>
<td>one section</td>
<td></td>
</tr>
<tr>
<td>PAD 501</td>

<tr>
<td>PAD 508</td>
<td>one section</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

* Course offerings subject to change. The department does not control which courses are offered in the summer. Check each year to see which summer courses are offered. Do NOT plan your program--especially your graduation date--around the assumption that summer courses will be available. Summer Sessions may cancel courses up to twelve hours before their scheduled start date.

How to Register for PAD 509:

- Find a professor with whom you would like to work
- Ask the professor for his/her section number and a permission number
- You will not be able to find the appropriate section using the schedule search function in MyUAlbany
- Add the class BEFORE THE LATE ADD/DROP PERIOD

How to Register for an Independent Study:

The department has several course numbers designated to independent studies. First, you should contact the professor you wish to work with. If that professor agrees to work with you on an independent study, you should ask him or her for their class number of the appropriate independent study course and a permission number. The most popular options are PAD 697 – Guided Research (1-4 credits) and PAD 695 – Readings in Public Management (4 credits). All independent study courses are S/U graded and do not contribute to your cumulative GPA; however, appropriate courses can count towards concentration requirements. There are no graded options for independent study.
CONCENTRATIONS

In addition to the core courses, students choose one or two concentrations. When deciding which areas of concentration best fit with your career goals, you should speak with your advisor and with other faculty members who are associated with particular concentrations in which you may be interested. You should think of your concentration courses as being designed to give you the skills and background you need to succeed in your chosen career. You may fulfill the concentration requirement in two ways.

- **Option A:** Five courses within a single concentration. This option will provide you with deep knowledge of a particular topic, discipline, or subject area.

- **Option B:** Two courses in one concentration and three courses in a second concentration. This option will provide you with greater breadth, allowing you to develop two areas of expertise instead of just one. The concentrations listed in the following pages may be paired in any way that is approved by your advisor. Several concentrations require specific courses; these courses must be met even when taking only a two course concentration, except where otherwise specified.

If you cannot find a concentration that fits your interests, it is also possible to construct a customized concentration in cooperation with your advisor. Your advisor is also empowered to make various adjustments to which electives count towards a given sub-concentration, but will generally not alter the required courses for a given sub-concentration.

*Some concentrations have required courses that may only be offered every other year.* In order to take concentration courses that will not be offered during your second year in the program, you may delay parts of the core. For this reason, it is essential to consult with an advisor during the first week or two in the program. You and your advisor should cooperatively create a strategy for completing both the core and your desired concentrations in a timely fashion.
Concentration in
PUBLIC MANAGEMENT

This concentration is designed to provide current and future managers with both a theoretical and practical understanding of the knowledge and skills needed to be an effective manager in public and nonprofit organizations.

It is possible to combine elements of all of the following public management disciplines into one 5-course concentration, which may also draw on relevant courses from other concentrations. Students often find it productive to combine courses in the Public Management area with selections from the Financial Management, Policy Analytical Methods, or Nonprofit Management concentrations. For example, students interested in health management might combine coursework from Organizational Behavior and Theory, Financial Management, and Health Policy. Students interested in the State and Federal areas of government would typically work with their advisor to choose courses from across the Public Management and Public Economics & Finance offerings to match their specific career interests.

Students interested in Government Information Strategy and Management may also choose courses from the Policy Analysis and Information Systems concentration, and Information Policy sub-concentration. These concentrations address public policy and management innovations that are the consequence of rapidly changing information and communication technologies (ICTs) and changes in the nature, amount, and availability of information in government and society.

Students wishing to do a 5-course concentration in Public Management should consult with their academic advisor to design a customized concentration, or they may choose from the following sub-concentrations. Students doing a 2-course or 3-course concentration must choose from the following sub-concentrations, including their required courses.

SOC 642  Sociology of Work

**Health Management**
PAD 538  US Health Reform in the Age of Obama
PAD 550  Foundations of Government Information Strategy and Management
PAD 631  Cost Management for Government, Health Care, and Nonprofit Organizations
PAD 644  Health Care Finance
PAD 647  Capital Markets, Risk and Governments
PAD 650  Building a Case for IT Investments in the Public Sector
PAD 653  Public Health Politics and Policy: Global and Domestic Perspectives
PAD 654  Economics of Health Policy: Your Money or Your Life
PAD 659  Managing Public Service Organization Finances

**Self-Designed Concentration**
Students may work with an advisor knowledgeable about a substantive area that is related to these courses to design a unique 5-course concentration in Public Management.
NONPROFIT MANAGEMENT AND LEADERSHIP

There are no sub-concentrations in Nonprofit Management and Leadership. Courses are divided into three areas to help students map a coherent plan of study.

Concentration in
PUBLIC ECONOMICS & FINANCE

This concentration provides students with a theoretical and practical understanding of the central concepts in public economics and finance. Students planning a career in budgeting, financial management, or taxation may choose to select all their courses from this group. Students planning a career in a particular institutional environment or programmatic area should consider taking additional courses in Politics, Policy, and Institutions. Students desiring skills in policy analysis or public management might combine courses in economics and finance with those in Policy Analysis and Information Systems or Public Management.

FACULTY ADVISORS

Kevin Bronner          Elizabeth Searing
Shawn Bushway          Lucy Sorensen
Gang Chen              Jeffrey Straussman
Peter Finn             Stephen Weinberg
David Matkin

Courses in public economics and finance are grouped into two areas to help students form a cohesive plan of study with their advisor. Students may choose courses from both areas.

Financial Management.
PAD 532   Performance Measurement and Contracting in Government
PAD 631   Cost Management for Government and Nonprofit Organizations
PAD 640   Nonprofit Financial Management
PAD 641   Basic Governmental Accounting
PAD 642   Public Budgeting
PAD 644   Health Care Finance
PAD 647   Capital Markets, Risk and Governments
PAD 659   Managing Public Service Organization Finances

Public Economics.
PAD 538   US Health Reform in the Age of Obama
PAD 643   Economics of Government Programs
PAD 644   Health Care Finance
PAD 645   Psychological Economics and Policy
PAD 654   Economics of Health Policy: Your Money or Your Life
APS 631/PAD 669  Economics of Education

Self-Designed Concentration
Students may work with an advisor knowledgeable about a substantive area that is related to these courses to design their own concentration.
Concentration in
POLICY ANALYSIS & INFORMATION SYSTEMS

This concentration provides students with basic skills in analyzing and reporting about policy and management questions including issues of how to manage information resources in the public and nonprofit sectors. Courses deal with techniques and their applications to public policy and management issues. Topics covered by these courses include research methodology, statistics, decision methods, systems analysis, data analytics, evaluation, and information management in government and nonprofit organizations. In addition, students specializing in this area may design course sequences in specialized policy areas such as health, environmental management, or social services.

This concentration has three sub-concentrations. Students must choose one of these tracks to pursue.

Concentration in
POLITICS, POLICY, & INSTITUTIONS

This concentration is intended to help students understand the place and role of public and nonprofit institutions as they affect the policies and administration of the political systems of the United States and other countries. The wide range of possible concentrations provides opportunities for a student to focus on specific policy sectors, particular institutional settings, and both domestic and international settings.

Self-Designed Concentration
Students may work with an advisor knowledgeable about a substantive area to design their own concentration for that area.
Concentration in
SUBSTANTIVE PUBLIC POLICY AREAS

The Substantive Policy Area concentration provides students with analytic and quantitative skills to frame policy issues, deal with their institutional and political contexts, and bring about effective action directed at the formulation, approval, implementation and evaluation of policy. Students must choose a particular sub-concentration.

The policy sub-concentrations listed in this section represent policy areas of excellence in teaching in research at the University at Albany. Students are strongly encouraged to combine three courses from a substantive policy sub-concentration with two or more courses from the Policy Analytic Methods concentration or the Quantitative Methods concentration. In addition to the established concentrations, students may design their own field of study in close consultation with their academic advisor.

Note Well: this manual cannot offer a comprehensive, up-to-date list of every relevant course offered across the University. Students are encouraged to search the course listings in relevant departments for other graduate-level courses relevant to their plan of study. Academic advisors may approve additional courses for their sub-concentrations.

Substantive Policy sub-concentrations draw upon the University Public Policy faculty, which is comprised of faculty from the departments and Colleges across campus. These faculty share an interest in the policy process and define a distinctive strength in policy studies at the University at Albany. Members of the Policy Faculty share many over-lapping interests, creating a network of shared policy interests. Several key faculty advisors have been associated with each policy cluster to help you locate other faculty who may be able to advise you within your policy interests. Members of the University Policy Faculty are listed below.

David Andersen, Public Administration and Policy
Victor Asal, Political Science
Aaron Benavot, Educational Administration and Policy Studies
Carl Bon Tempo, History
Ray Bromley, Geography and Planning
Gene Bunnell, Geography and Planning
David Carpenter, Environmental Health Sciences
José Cruz, Political Science
Nancy Denton, Sociology

COMBINED DEGREES, GRADUATE CERTIFICATES, AND DUAL DEGREES

Combined Degrees at the University at Albany

BA or BS in Economics/Master of Public Administration
BA in Political Science/Master of Public Administration
BA in Public Policy/Master of Public Administration
BA in Sociology/Master of Public Administration

Dual Degrees

In conjunction with The Albany Law School, the joint MPA/J.D. program is designed to promote integration between the fields of public administration and law. It enables students to earn both degrees in, at most, four years of full-time study, rather than the usual five. Students must complete their first year of study at the Albany Law School. Recipients of joint MPA/J.D hold professional credentials for a broad range of careers in government, consulting, teaching, research, and law.

A maximum of six courses may be applicable to both degrees. Through the joint MPA/J.D. program, a maximum of three 3- or 4-credit courses within the MPA curricula may be transferred to be counted toward the J.D. The transfer of three 3- or 4-credit courses from the J.D. curricula will be accepted toward the MPA. Students must meet the admissions standards of both The Rockefeller College of Public Affairs and Policy and Albany Law School. Each school will evaluate the application based on its own requirements and standards.

Graduate Certificates

The graduate certificates in Public Sector Management, Nonprofit Management and Leadership, International Health and Human Rights and Women & Public Policy are designed to develop student capabilities and expand student interests. Each can be taken by itself, as exploratory study leading to the MPA, or as an add-on to the MPA degree.

• Students beginning with one of the certificates who decide to continue on for an MPA may count toward the masters all the certificate courses they have taken that fit their proposed course of master’s study.

• Students in the MPA program or graduates of the program may decide to extend their coursework to obtain one of these certificates by taking at least three additional courses not counted toward their masters.
