Math Refreshers

You will take a math diagnostic test on the first day of Welcome Week to determine if you need to attend one or more of the Math Refresher workshops. You will receive the results by noon on Monday August 17th. Depending on your score, you will be assigned to attend one or more refresher workshops. There are two different times for each of the Math Refresher workshops.

If you are a continuing student and have already taken two of RPAD 501, 503, or 505 and received a B or higher, you should have received notification if you qualify to waive the workshops.

Regardless of the levels assigned, all students are welcome to attend any additional workshops if you feel you need the review.
