Note: These data were collected from government documents and from the annual surveys of government finances and employment conducted by the U.S. Census Bureau. Justice data are extracted from these sources by the Census Bureau for the U.S. Department of Justice, Bureau of Justice Statistics. The Federal Government, all State governments, and a sample of county, municipal, and township governments were included in the surveys. Since not all local governments were included in the surveys, these data are subject to sampling variation. Duplicative transactions between levels of government are excluded from the total for all governments, the State and local total, and the local total. Such intergovernmental expenditure consists of payments from one government to another and eventually will show up as a direct expenditure of a recipient government.

The U.S. Census Bureau changed the reference month for employment and payroll data from October to March after the 1995 data collection. Data for 1995 and previous years refer to the month of October. No data were collected during the period of transition, consequently, there are no 1996 employment and payroll data. Beginning in 1997, employment and payroll data are for the month of March. Some data have been revised by the Source and may differ from previous editions of SOURCEBOOK. For survey methodology and definitions of terms, see [Appendix 1](#).

<sup>a</sup>Detail may not add to total because of rounding.

<sup>b</sup>Data for local governments are estimates subject to sampling variation.
