1999	39,324,285	33,133,214	3,373,785	2,817,286

Note: See Note, [table 1.1](#). Duplicative transactions between levels of government are excluded from the total for all governments, the State and local total, and the local total. Such intergovernmental expenditure consists of payments from one government to another and eventually will show up as a direct expenditure of a recipient government. The State government total for 1980 and 1981 includes a residual "other" category not displayed separately. Some data have been revised by the Source and may differ from previous editions of SOURCEBOOK. For survey methodology and definitions of terms, see [Appendix 1](#).

^aDetail may not add to total because of rounding.

^bBeginning in 1998, expenditure data for the Federal government are taken directly from the **Budget of the United States Government** rather than from U.S. Census Bureau compilations. Therefore, the "all governments" and "Federal" categories are not directly comparable to prior years.

^cData for local governments are estimates subject to sampling variation.
