Note: For data on other U.S. Marshals Service workload activities, see [table 1.77.2006](#). The U.S. Marshals Service (USMS) is a law enforcement agency performing duties for the Executive Branch of the Federal Government. The agency executes all warrants issued by the Federal courts, conducts fugitive investigations, and maintains custody of all Federal pretrial detainees. In addition, the USMS is responsible for prisoner processing and detention, transportation and production of prisoners, protection of Federal judiciary, Federal witness security, the execution of court orders, and management of related Federal Government seizures. Further responsibilities include escorting missile convoys, suppressing prisoner disturbances in Federal prisons, and arresting dangerous fugitives.

"Inter-district prisoner trips" is the total number of trips assigned to each district. These trips include movements by commercial airlines, chartered aircraft, and various modes of ground transportation. "Felony warrants received" includes felony warrants issued by Federal courts for escape, bond default, probation or parole violations, DEA fugitive warrants, and warrants generated by other Federal agencies without arrest powers. "Felony warrants closed" is the number of USMS arrests plus the number of arrests by other agencies, and dismissals in felony cases. "Process served" is the number of Federal or private court orders attempted or successfully served by the USMS in person or by mail. "Seized properties received" is the number of properties that were administratively seized by the USMS or seized by other Federal agencies and referred to the USMS for custody and disposal, as well as properties seized pursuant to judicial forfeiture actions. Judicial forfeiture actions are those in which the property is seized, held for custody, and disposed of by the USMS. These properties include real property, personal property, vehicles, jewelry, and cash, etc. (Source 2000, pp. 107, 108.)
