Note: These data were compiled by the Federal Bureau of Investigation through the Uniform Crime Reporting (UCR) Program. On a monthly basis, law enforcement agencies (police, sheriffs, and State police) report the number of offenses that become known to them in the following crime categories: murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson. A count of these crimes is taken from records of all complaints of crime received by law enforcement agencies from victims or other sources and/or from officers who discovered the offenses. Whenever complaints of crime are determined through investigation to be unfounded or false, they are eliminated from an agency's count (Source, Table 1).

These data represent all law enforcement agencies submitting complete reports for at least 6 common months in 2006 and 2007 (Source, Table 12). Forcible rape figures furnished by the State-level Uniform Crime Reporting (UCR) Program administered by the Minnesota Department of Public Safety for 2006 and 2007 were not in accordance with national UCR guidelines. Also, complete data were not available for some Illinois jurisdictions for 2006 and 2007. Crime counts for Illinois for both years and forcible rape counts for Minnesota for both years were estimated by the Source. For definitions of offenses and areas, see [Appendix 3](#).

^a Less than 0.1%.

^b Includes State police agencies with no county breakdown.

^c Includes law enforcement agencies in cities with less than 50,000 inhabitants and county law enforcement agencies that are within a Metropolitan Statistical Area; excludes all metropolitan agencies associated with a principal city. The agencies associated with suburban areas also will appear in other groups within this table.
