Note: See Note, [table 3.106.2005](#). "Commercial house" refers to nonresidential structures, with the exception of gas stations, convenience stores, and banking-type institutions. "Loss" refers to property taken during the commission of the offense only. All Part I offenses, except aggravated assault and arson, including those that involve no loss of property, were used in compiling "average loss." The taking of money or property in connection with an assault is categorized as robbery. Arson is not included in the data set from which these figures are derived. Therefore the Source excluded these offenses from this table. These data are based on law enforcement agencies submitting complete reports for at least 6 months in 2005 (Source, Table 23). Complete data were not available for Illinois; crime counts for Illinois were estimated by the Source. For definitions of offenses, see [Appendix 3](#).

<sup>a</sup>Percent change calculations are based only on agencies submitting 6 or more common months of data for both 2004 and 2005. As a result, direct comparisons should not be made with similar data presented in previous editions of SOURCEBOOK.

<sup>b</sup>Because of rounding, percents may not add to total.
