Note: These data reflect the number of bias-motivated offenses reported to the Federal Bureau of Investigation's (FBI) Uniform Crime Reporting Program. In accordance with the Hate Crime Statistics Act of 1990, the FBI defines hate crimes as offenses motivated, in whole or in part, by the offender's bias against race, religion, ethnic/national origin, disability, or sexual orientation and committed against persons, property, or society. For 2010, a total of 14,977 law enforcement agencies in 49 States and the District of Columbia participated in the Hate Crime Data Collection Program. Hawaii did not participate. These figures include data from law enforcement agencies submitting less than 12 months of data to the FBI (Source, Hate Crime by Jurisdiction). Data from this source have been updated by the FBI and may differ from those reported in *Crime in the United States, 2010*.

^aThis table excludes 2,670 hate crime offenses for which no information about the offender was available, therefore subcategories will not add to total.

^bA hate-crime incident in which two conditions must be met: more than one offense type must occur in the incident and at least two offense types must be motivated by different biases.
