Note: These data were compiled by the Federal Bureau of Investigation through the Uniform Crime Reporting (UCR) Program. On a monthly basis, law enforcement agencies (police, sheriffs, and State police) report the number of offenses that become known to them in the following crime categories: murder and nonnegligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson. A count of these crimes is taken from records of all complaints of crime received by law enforcement agencies from victims or other sources and/or from officers who discovered the offenses. Whenever complaints of crime are determined through investigation to be unfounded or false, they are eliminated from an agency's count (Source: [http://www.fbi.gov/ucr/cius2007/about/table\\_methodology.html](http://www.fbi.gov/ucr/cius2007/about/table_methodology.html)). In trend tables "constructed" or "adapted" by SOURCEBOOK staff from *Crime in the United States*, the data are from the first year in which the data are reported. It should be noted that the number of agencies reporting and the populations represented vary from year to year.

The Uniform Crime Reporting Program requests that supplementary information be transmitted to the FBI when a murder or nonnegligent manslaughter has been committed. The actual number of offenses presented in the tables displaying characteristics of murders and nonnegligent manslaughters known to the police may differ from figures in other tables that reflect data from only the initial report of the offense. For example, supplementary data were provided by contributing agencies for 14,831 of the estimated total of 16,929 murders and nonnegligent manslaughters in 2007 (Source, 2007, Expanded Homicide Data Table 8 and [http://www.fbi.gov/ucr/cius2007/offenses/violent\\_crime/murder\\_homicide.html](http://www.fbi.gov/ucr/cius2007/offenses/violent_crime/murder_homicide.html)). For information on States supplying incomplete data for selected years, see Appendix 3.

<sup>a</sup>The murders and nonnegligent manslaughters that occurred as a result of the events of Sept. 11, 2001 are not included in this table.

<sup>b</sup>Because of rounding, percents may not add to total.

<sup>c</sup>In 1994, these age categories were changed by the Source; previously the age groups were "5 to 9 years," "10 to 14 years," and "15 to 19 years."

<sup>d</sup>Less than 0.5%.
