Note: See Note, table 6.4.2002. These data are from the Federal Bureau of Prisons data files. Prisoners and the length of their sentences are classified according to the offense associated with the longest single sentence actually imposed. Prisoners serving consecutive sentences may have total imposed sentences exceeding the longest single sentence length. Accordingly, the time actually served may exceed the longest single imposed sentence. "Time served" is the number of months from the prisoner's arrival into jurisdiction of the Bureau of Prisons until first release from prison, plus any jail time served and credited. The total reported for "all offenses" includes prisoners whose offense category could not be determined. These data exclude prisoners who left Federal prison by extraordinary means, such as death, sentence commutation, and treaty transfer: 4,771 prisoners in fiscal year 2002. For methodology and definitions of terms, see Appendix 11.

^aIncludes only violent sex offenses.

^bExcludes tax fraud.

^cExcludes transportation of stolen property.

^dExcludes fraudulent property offenses; includes destruction of property and trespass.

^eOffenses not classifiable or not a violation of the U.S. Code.
