Note: These data are from the 2000 Census of State and Federal Adult Correctional Facilities, the sixth in a series of facility censuses, sponsored by the U.S. Department of Justice, Bureau of Justice Statistics. The universe of facilities was developed using the 1995 census and updated to identify new facilities and facilities that had closed since June 30, 1995. Facilities identified for the 2000 census include 84 Federal facilities, 1,295 State facilities, 22 facilities under State and local authority, 3 facilities operated by the District of Columbia, and 264 private facilities, in operation on June 30, 2000. Adult correctional facilities include: prisons and penitentiaries; boot camps; prison farms; reception, diagnostic, and classification centers; road camps; forestry and conservation camps; youthful offender facilities (except those in California); vocational training facilities; prison hospitals; drug and alcohol treatment facilities; and State-operated local detention facilities (in Alaska, Connecticut, Delaware, Hawaii, Rhode Island, and Vermont). Data were collected from all facilities resulting in a response rate of 100%.

The data presented are from 1,295 State-operated facilities, 22 facilities under joint State and local authority, 3 facilities operated by the District of Columbia, and 238 private facilities with more than 50% of their prisoners held for State authorities. All 84 Federal facilities and 26 privately operated facilities holding at least 50% of their prisoners for Federal authorities were excluded because data for prisoners receiving mental health treatment in these facilities were not available.
