SCHOOL OF PUBLIC HEALTH

UNIVERSITY AT ALBANY State University of New York

Clinical Breast Exam (CBE) Training

Audience: This training is open to Registered Nurses, Physicians Assistants, Nurse Practitioners and Physicians administering clinical breast exams to women. Preference will be given to clinicians who administer CBEs through the NYS Cancer Services Program. Space is limited to 16 participants per training.

Objectives: At the end of this program participants will be able to:

- Describe the epidemiology of breast cancer.
- List the breast cancer risk factors.
- Identify the goals and guidelines for breast cancer screening.
- List the components that the practitioner will perform in the clinical breast exam and demonstrate a comprehensive clinical breast exam.
- Define abnormal variations in breast tissue.
- Explain to the patient how to do a breast self exam.
- Document a comprehensive history and the findings of a comprehensive clinical breast exam.

CME and Nursing Contact Hours are available for participation in this training. Please select CME or Nursing Contact Hours when you register. You will receive your certificate at the training.

School of Public Health, University at Albany, is an approved provider of continuing nursing education by the New York State Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.
