Ensuring that all children and adolescents have access to comprehensive affordable health insurance coverage is at the top of Governor Spitzer's health agenda. This session will look at who New York's uninsured are, describe the State's campaign to provide access to health insurance for all children and eligible adults and highlight initiatives underway that will make it easier for families to apply for and renew their coverage. It will also describe a collaborative partnership in the City of Rochester, NY to increase insurance coverage for school students and their families.
