Latino/a Health Disparities: Beyond the Cultura Answer
Originally presented on June 8, 2015

Speakers:
**Edgar Rivera Colon, Ph.D.**  
Lecturer, Narrative Medicine Program, Columbia University  
**Moises Serrano**  
Student, Sarah Lawrence College, and community activist

This webinar will help participants to understand a structural competency approach to Latin@ Health disparities by explaining the emergence of Latin@ communities in the US via specific economic and social forces. Through the use of two case studies, one on asthma in the Hunts Point in NYC and another focused on the UndocuQueer movement, the webinar will operationalize the expansion of cultural competency through building structural health literacy capacities for participants.

**Learning Objectives**
After watching this webinar participants will be able to:

- Identify the difference between a cultural competency and a structural competency approach in public health and healthcare
- Recognize the importance of structural competency for health disparities reduction in Latino and Latina communities
- Explain the Latino presence in the U.S. as driven by institutions and social forces
- Appraise structural competency in light of two case studies
