Foundations of Field Epidemiology

1. Epi Essentials

2. Crunching the Numbers

3. Disease Dynamics

4. Outbreak! The Farm Market Mystery

Center for Public Health Continuing Education *Field Epi 101: Outbreak Investigation*

Wednesday, November 9, 2011

9:00 a.m. – 4:00 p.m.

University at Albany, School of Public Health, Rensselaer

This live training is a one-day regional workshop (Lead instructor - Stan Kondracki) that entails practical application of principles to simulated case files. In addition to the face to face one day workshop, this training includes a self-paced online course. The online course provides an overview of field epidemiology and the steps of an outbreak investigation.

These trainings are for front-line public health nurses and environmental health staff.

To register, go to <http://www.albany.edu/sph/cphce/fieldepi.shtml>

and follow the *Registration Process Directions*
