DISCOVER PUBLIC HEALTH!

Our graduate programs prepare students to help improve lives and protect the health of communities through education, promotion of healthy lifestyles, and research for disease and injury prevention. Come find out if the University at Albany School of Public Health is the place for you.

Graduate Degree Programs
Health Policy, Management & Behavior (MPH, DrPH)
Biomedical Sciences (MPH, MS, PhD)
Environmental Health Sciences (MPH, MS, PhD, DrPH)
Epidemiology (MPH, MS, PhD, DrPH)
Biostatistics (MPH, MS, PhD)
Public Health Practice (fully online MPH)

Certificate Programs
Public Health Fundamentals and Principles (online)
Public Health Surveillance and Preparedness (online)
Global Health (online)
Health Disparities (on campus)

MPH students may add a graduate certificate for a second area of study, with several courses counting toward both degree programs.
