In today's world -

We all worry about the threat of disaster, natural or man-made. We know that animals are especially vulnerable when disaster strikes and that many animals must rely on human intervention to ensure their safety. In 2004 New York State adopted the SART program to address its animal-related disaster response needs.

The Empire State Animal Response Team (ESART) was created through a private-public partnership to serve as a unifying network of organizations, businesses, government agencies and individuals that support the prevention of, preparedness for, response to, and recovery from emergencies affecting animals in New York State.

Because disaster response begins and ends at the local level, ESART promotes and supports the creation of County Animal Response Teams (CARTs). The ability to provide rapid, professional assistance...
