

School of Public Health

1 University Place
Rensselaer NY 12144
(518) 402 0283

Directions

From most directions (except East) it is easiest to approach the school from Interstate I-787. From I-787 (either direction):

- Take the Rensselaer Exit for Rtes. 9 and 20 off of Rte. 787. Travel across the Hudson River on the Dunn Memorial Bridge.
- At the end of the bridge, stay to the left, following signs to East Greenbush via Rtes. 9 and 20.
- Staying on the main road, you will go through Rensselaer and up the hill on Columbia Turnpike (Rtes. 9 and 20)
- After crossing two overpasses (but before the top of the hill) take the second left. This is marked with a large University sign. There is a building site on the left.
- Passing Regeneron Pharmaceuticals on the right, go straight through a security gate. The School of Public Health is in the large, buff-colored building to your immediate left (the "George Education Center") with an obvious glass atrium entrance.

There is a small Visitors parking area in front of the building, but often it is full. To reach other Visitors Parking, turn right just past our building, and then right again to reach the large lot (the lot is on the right behind some trees as you enter past the security gate).
