How to Apply

Applying to be in an L-LC is easy!

The Living-Learning Community application is part of the University at Albany’s housing application process, available through your MyUAlbany account.

- Select the community you would like to join from the list
- Select your potential major (including “undecided”), so we can be sure the L-LC is a good fit for you
- Tell us why you would like to be a member of the L-LC you have chosen and how you can contribute to that particular community

Students who are selected to be members of their chosen L-LC will be notified via university email beginning in late June.

World of Chemistry

“The World of Chemistry has made my Freshman year fun and successful. I was introduced to so many opportunities and so many influential people that have expanded my horizons.”

- Kaycie Lawson, World Representative

Learn Where You Live
Recent national studies have shown that living-learning communities positively impact student success!

**World of Chemistry**
The World of Chemistry is designed for incoming freshmen with an interest in chemistry. Members of the World of Chemistry will socialize with like-minded peers, learn more about the field of chemistry and related career paths, and be introduced to scholars with active and expanding research programs at the University at Albany. Members of the World of Chemistry will participate in a variety of social and academic activities, such as:

- Review sessions and study groups
- Research facility tours
- Social gatherings with your L-LC friends.
- Panels with senior chemistry students
- Guest speakers working in fields related to chemistry
- Community service

*The World of Chemistry is open to intended chemistry, biochemistry, and molecular biology majors, as well as physics majors with a strong interest in chemistry.*

**Living**
As a member of the World of Chemistry you will **live with other incoming freshmen who share your interest** in chemistry.

**Learning**
You will **take one or two of your classes together** in the fall and spring semesters of your freshman year, and attend co-curricular events together as a community.

**Community**
As a member of an L-LC you will have a built-in community of friends and colleagues right from the start!

- **Friends:** Study and socialize with fellow L-LC members. Tackle those first-year courses with your friends by forming study groups where you live!
- **World Ambassadors:** Learn the ropes from a peer selected from last year’s most engaged L-LC students.
- **Community Assistant:** Meet weekly with an upperclass/graduate student to plan or attend social, academic, and community service events.
- **Lead Faculty Member:** Get to know a member of the faculty outside of the classroom at weekly lunches in your own dining hall!
- **Academic Advisor:** The World of Chemistry has its own Academic Advisor to help you plan your UAlbany pathway to success.
- **Leadership Opportunities:** Become a World Representative. Go on to assume a campus-wide leadership role.

**Responsibilities of an L-LC Member**
- Register for the designated L-LC classes
- Attend lunch with the lead faculty member and weekly L-LC meetings/activities with the Community Assistant
- Participate in fun All-World Events with the other L-LCs (typically two per semester).
- Perform community service with your L-LC each semester
- Be a vital and engaged member of the University at Albany community

For more information about the World of Chemistry, including upcoming classes and activities, or to learn more about the responsibilities of being in an L-LC, please visit our website.
