Career & Professional Aspirations:
Based on findings from a recent survey of UAlbany Students

- UAlbany students believe that their internship experience provided them with valuable hands-on experience in a field of interest, time management skills, a sense of professionalism, and guidance in helping define personal career goals.

- Career Services’ programs and services most utilized by UAlbany students include resume writing/reviewing assistance, on-campus job fairs, and individual career counseling.

- UAlbany students believe networking with family, friends, and/or university alumni (30%) and seeking guidance from Career Services (23%) or a faculty advisor (21%) are the best methods for finding an internship opportunity.

Methodology
1,104 Respondents of the 2010 NASPA Consortium: Career and Professional Aspirations survey administered electronically through StudentVoice between April 6, 2010 and April 23, 2010.
