# Table of Contents

1. A Guide for Scholarly Inquiry Into Teaching
   - What Is Happening in My Classroom?
   - Teaching: A Scholarly Journey
   - A Model for Your Classroom Inquiry
   - Inquiry Step 1: Reflecting on Course Background, History, and Development
   - Inquiry Step 2: Identifying an Issue to Investigate
   - Inquiry Step 3: Defining an Inquiry Hypothesis
   - Inquiry Step 4: Developing an Investigative Plan
   - Inquiry Step 5: Relating Your Inquiry to What Has Been Done Before
   - Inquiry Step 6: Seeking Institutional Approval and Student Consent
   - Inquiry Step 7: Teaching the Course
   - Inquiry Step 8: Interpreting and Evaluating Your Findings
   - Inquiry Step 9: Reflecting on the Inquiry Process
   - Checklist for Assessing Classroom Inquiry
   - What’s Next

2. The Basic Structure of Classroom Inquiry
   - Inquiry Question: What is the change to student learning that results from replacing two in-class projects with out-of-class exercises in which students collect images that demonstrate fundamental course concepts?

3. Incorporating Additional Forms of Data Collection
   - Inquiry Question: How do classroom methods and practices develop student skills for thinking critically and independently?
4. Using Classroom Inquiry to Answer Multiple Questions

Inquiry Question: How does using different assessment strategies improve students' learning?

5. Overcoming Challenges With Data Collection

Inquiry Question: Does having students complete a weekly essay homework assignment improve their ability to explain and discuss mathematical concepts?

6. Linking Classroom Inquiry With Disciplinary Research

Inquiry Question: Does increased use of supplementary materials related to race lead to an increase in racial tolerance among students?

7. Obtaining Useful Inquiry Results, but More Data Is Needed

Inquiry Question: Is there an ideal size and team member composition that will enhance student success on a service-learning project?

8. Using Classroom Inquiry to Evaluate New Assessment Measures

Inquiry Question: What is the effect of having students grade each other's essay examinations in a survey course?

9. Classroom Inquiry for Measuring Feedback on Student Learning and Aptitudes

Inquiry Question: What is the effect of web-based assessment practices on students' performance and attitudes?

10. Classroom Inquiry and Scholarly Teaching

Inquiry Question: Are visual methods of brainstorming more effective than verbal methods?
