### LICENSE UPGRADES

The Emigre Font Software is licensed for use at a single location for use with a maximum six (6) devices. For example: (1) printer with up to five (5) CPUs. The Emigre Font Software may not be shared between locations or business entities. Each additional location and/or entity must purchase a separate license to be used in accordance with the terms of the Emigre Font Software License. License upgrades may be purchased for use with additional devices. The upgrade price is calculated as a percentage of the original price of the software. To determine the number of devices, add up all CPUs, workstations, printers, and other devices that use the fonts. The following is cumulative:

- 1 - 6 devices (standard license)
- 7 -12 devices: add 50 percent
- 13-60 devices: add 20% for each 6 devices
- 61-150 devices: add 15% for each 6 devices
- 151-300 devices: add 10% for each 6 devices
- over 300 devices: add 5% for each 6 devices

Very large or unlimited uses of the Emigre Font Software will require a custom license agreement.

For information about various license options go to: <http://www.emigre.com/EULOptions.php>

## Character Set and Key Map

This key map applies to Emigre's standard character set for text faces; some display fonts may have more limited character sets. If this font package includes special characters, illustrations, or small caps and fractions, please see the additional characters on the following pages.

Please note that this character set is provided under the Windows operating system; additional characters may be available with other systems, such as Macintosh.

### Note about Numerals:

Some Emigre fonts include both lining and old style figures. If your package includes both types of numerals, they are provided in separate font files.

**Lining** numerals are aligned with the height of the capital letters, creating an even appearance with uppercase text.

**Old style** numerals, also called "non-lining," have ascenders and descenders like the lowercase letters, with emphasis along the x-height, thus creating an even appearance within lowercase text.

For more information about lining and old style figures, see: [www.emigre.com/EFoGC.html](http://www.emigre.com/EFoGC.html)

### Euro Symbol

ALT 0164

Starting with the 1999 releases, Emigre fonts will include the Euro symbol in the ALT 0164 key position.

For information about the Emigre Euro font, see: [www.emigre.com/Euro.html](http://www.emigre.com/Euro.html)
