

# CSI 333 – Fall 2011 – A Note About Team Projects

- Projects III and IV for CSI 333 are team projects, with each team consisting of two students.
- However, any student who wants to work on these projects by himself/herself is welcome to do so.
- Such students must send a short email message to Prof. Ravi **by 11 AM on Monday, Sep. 26, 2011.**
- If an email message is not received from a student by the above date/time, it will be assumed that the student is willing to work in a team for Projects III and IV.
